THE EVOLUTION OF SIG SAUER®

In our state-of-the-art facilities across ten locations worldwide SIG SAUER® manufactures the finest firearms, electro-optics, ammunition, suppressors, and airguns, while also offering world-class firearms and tactical training at the SIG SAUER AcademySM.

At SIG SAUER we are driven by our relentless pursuit to manufacture products of unparalleled quality, an unwillingness to compromise, and an absolute refusal to settle. We are emboldened by our love of freedom and share the same passion and pride for our country as those who choose the SIG SAUER brand.

Regardless of whether a SIG SAUER product is being deployed on the battlefield by a soldier, protecting law enforcement as an official duty sidearm, or simply the product of choice of a private citizen, you can trust that if it carries the SIG SAUER name it is built to our precise exacting standards, and undergoes the same rigorous quality controls to ensure that it performs when it matters most.

FROM WAGONS TO WORLDWIDE LEADER

When business entrepreneurs Friedrich Peyer Im Hof, Heinrich Moser, and Conrad Neher opened a wagon factory near the Rhine Falls in Switzerland in 1853, they laid the foundation for what would become the international leader in the small arms industry. Just seven years after constructing an industrial plant for building their wagons and railway cars, the three ambitious owners undertook a new venture responding to a challenge from Switzerland's Federal Ministry of Defense to develop a state-of-the-art rifle in hopes that the Swiss Army would adopt it.

Four years later, the trio found themselves facing an order for 30,000 of their rifles, and changed the name of their company to Swiss Industrial Group. The name was later shortened to SIG as they officially became one of the world's premier firearms manufacturers.

In the 1970's, the SIG small arms division expanded within Europe to include Hammerli Target Arms of Switzerland, and the legendary J.P. Sauer & Sohn, GmbH of Germany - one of Europe's oldest and most prestigious firearms manufacturers.

In the 1980's, SIG set its sights on the United States of America and opened its first American location in Virginia under the name SIGARMS®, and began importing and assembling the company's classic handguns.

In the 1990's, SIGARMS expanded its United States footprint by opening new manufacturing facilities in Exeter, New Hampshire where it would continue to expand to include the world-class SIGARMS training academy in Epping, New Hampshire.

In 2007, SIGARMS officially changed its name to SIG SAUER, aligning the company under a single global brand. Since then SIG SAUER has experienced unprecedented growth and expanded its New Hampshire footprint to include a 206,000 sq./ft. corporate headquarters and advanced manufacturing facility at Pease International Tradeport.

SIG SAUER continually invests in workforce development by hiring the foremost industry experts in ever expanding categories to ensure that all SIG SAUER products exceed the quality expectations that are synonymous with the brand.

Today, the SIG SAUER product lineup goes well beyond firearms to include a broad array of products such as electro-optics, ammunition, suppressors, and airguns, all designed, engineered, and manufactured to the same exacting standards of quality, reliability, and performance that have made SIG SAUER the brand of choice for the military, special forces, law enforcement, and civilians across the globe. In addition, SIG SAUER has expanded its U.S operations with a dedicated optics facility in Oregon and a purpose-built ammunition plant in Arkansas.

SIG SAUER has evolved because we continually compete against ourselves, because we believe our greatest success has yet to be engineered, and we are driven by the knowledge that our customers can't afford to settle so they trust we never will. SIG SAUER. Never Settle.

U.S. DEFENSE CONTRACTS

U.S. MILITARY (ALL BRANCHES) M17*/M18*

After one of the most rigorous and highly competitive selection processes in the history of small arms, the SIG SAUER® P320* based M17 and M18 were awarded the Modular Handgun System (MHS) contract by the U.S. Army. The M17 and M18 have now been adopted by all branches of the U.S. Military.

U.S. ARMY NEXT GENERATION SQUAD WEAPONS (NGSW) PROGRAM

SIG SAUER has been selected by the U.S. Army to develop the Next Generation of squad-based weapon systems, including a lightweight machine gun, a carbine rifle, a next generation of suppressor and the first-of-its-kind hybrid ammunition.

U.S. ARMY CONTRACTING COMMAND .300 WIN MAG AMMUNITION

SIG SAUER Ammunition, known for quality and accuracy, was selected by the U.S. Army to manufacture the Mk 248 MOD 1 and MOD 0 300 Win Mag ammunition for use in U.S. Military Sniper Platforms.

DOD SUPPRESSED UPPER RECEIVER GROUP MCX™ (SURG)

The SIG SAUER MCX system was selected to upgrade the existing M4A1 U.S. Special Operations Forces carbines and optimize their weapons for continuous suppressed use on the battlefield.

U.S. ARMY/DOD/U.S. AIR FORCE TANGO6T

The SIG SAUER Electro-Optics TANGO6T has three times been selected by the Department of Defense as the U.S. Army Squad Designated Marksman Rifle (SDMR), the USSOCOM Squad-Variable Powered Scope (S-VPS), and the Direct View Optic (DVO).

DEPARTMENT OF HOMELAND SECURITY (DHS) P320 & ROMEO1PRO

SIG SAUER Electro-Optics ROMEO1Pro miniature open reflex sight was chosen by the Department of Homeland Security for U.S. Immigration and Customs Enforcement (ICE) as the official red dot optic for their SIG SAUER P320 official duty pistol.

U.S. COAST GUARD PROFORCE® P229*

SIG AIR* was chosen to supply the U.S. Coast Guard with the SIG AIR PROFORCE P229 airsoft pistol as an official training pistol for Cadets and Guardsmen.

PISTOLS

PISTOLS

Choose from a full array of sizes, triggers, calibers, finishes, and features—all with unfailing SIG reliability and accuracy.

INSPIRED BY THE ELITE PROFESSIONAL. CARRIED BY ALL WHO DEMAND THE BEST.

Unless it's a SIG, a handgun is just a handgun. Engineered to perform anywhere, at any time, and under any circumstance, SIG pistols boast unique, advanced features that stand out amongst the rest. Key features include:

X-RAY3[™] Sights

Integral Accessory Rail

4-Point Safety System

NITRON[™] Stainless Steel Slide

SAS[™] (SIG ANTI-SNAG) FT Bullseye Sight

Threaded Barrel

Rear Sight Plate

ROMEOIPRO[™] Reflex Sight

SIZING UP YOUR SITUATION

You want a pistol with frame dimensions directly suited to your needs. Whether you'll be sliding your handgun into a range bag, concealing it in a purse, shooting competitively, or defending your home, SIG SAUER[®] offers a pistol for every shooter.

FULL-SIZE

When shootability and sighted accuracy are a must. Generous dimensions and even weight distribution help to deliver a more accurate sight picture and reduced felt recoil.

Barrel > 4" Frame > 7.5 x 5.5"

CARRY

A balance of shootability with concealment. A full-size grip allows the shooter more control while reduced slide length offers lighter carry.

Barrel < 4" Frame 7 x 5.5"

COMPACT

If concealment is an essential requirement, the reduced slide length and grip height enable easy concealment and carry, with ergonomics designed to promote point-and-shoot accuracy.

Barrel < 4" Frame ≈ 7 x 5"

MICRO-COMPACT

Discreet, lightweight, and able to fit almost anywhere. Often called "pocket pistols," the SIG micro-compact delivers the ultimate in concealment.

Barrel < 3.5" Frame < 5.8 x 4.3"

TRIGGER TIME

Any expert will tell you, it's the trigger that ultimately puts rounds on target. Weigh the pros and cons of each trigger carefully to select the one you can fire accurately, and carry with confidence.

STRIKER-FIRED TRIGGER

STR | Short Tactile Reset

Every trigger pull has the same weight and feel with a quick tactile reset to ensure faster and more consistent shots.

HAMMER-FIRED TRIGGER

DA/SA | Double-Action/Single-Action

The first trigger pull performs the double-action of cocking the hammer and then releasing the sear. Followed by lighter, single-action trigger pulls on all subsequent shots. The heavier first trigger pull acts to reduce inadvertent discharges.

SAO | Single-Action-Only

The trigger performs the single-action of releasing the hammer with a consistent trigger pull that is generally regarded as the shortest, lightest, and smoothest available. The slide can still be operated with the safety engaged (a SIG exclusive on P220[®], P226[®], P229[®], P238[®], and P938[®] models). All models feature a manual thumb safety.

THE CALIBER DEBATE

Popular opinions vary widely, but only you can select the right caliber for you. Consider bullet weight and velocity, your desired magazine capacity, ammunition cost, and availability.

.45AUTO

Known for a combination of power and controlled penetration due to a large diameter bullet and moderate velocities.

10MM

Offers higher velocity, greater range, and more kinetic energy than the .45AUTO.

.40S&W

Designed to match the performance of the FBI's reduced-velocity 10mm, in a smaller cartridge size, while offering an energy advantage over the 9mm.

.357SIG

Developed in 1994 to duplicate the performance of a 125 gr .357 Magnum cartridge. The .357SIG combines relatively high velocity with remarkably flat trajectory.

9MM

Regarded as the world's most popular and widely used handgun cartridge combining a flat trajectory with relatively low felt-recoil.

.380ACP

Compact and light design make it popular in handguns designed for concealed carry. Less powerful than larger calibers minimizing recoil and improving controllability.

RED DOT REVOLUTION

As the only manufacturer in the industry that can truly integrate a firearm and an optic into a single system that's ready to shoot, right out of the box, SIG SAUER® is leading a Red Dot Revolution that transforms the way you shoot. SIG SAUER now offers virtually all of our most popular pistols with the option of a factory-installed, and zeroed, reflex optic. Greater performance, increased accuracy, and radically simple – welcome to the Red Dot Revolution.

WHY PISTOL MOUNTED OPTICS?

Designed for fast, responsive target acquisition and accuracy, open reflex red dot sights, or pistol-mounted optics, are quickly becoming popular among experienced and novice shooters. Red dot sights allow you to quickly and easily acquire your sight picture and make follow-up shots faster. The inherent simplicity of a single aiming point on the same visual plane as the target, makes red dots extremely easy to use, simply put the dot on the target, and press the trigger.

P365XL™

P365

MICROCOMPACT SIZE WITH FULL-SIZE CAPACITY

The award-winning P365 has redefined the micro-compact pistol category, quickly becoming one of the most coveted firearms in the industry. The P365 features a patented modified double-stack magazine capable of 10+1, 12+1 or 15+1 full-size capacity. Its ergonomic design makes it more shootable than the typical pocket-sized pistols with a clean, crisp trigger pull you expect from a SIG SAUER®. The P365XL™ ROMEOZero™ is available with the ROMEOZero reflex optic installed and zeroed right out of the box, making it the most capable micro-compact available today.

P320[®]

MODULAR HANDGUN

A clean, crisp, short trigger reset with safe takedown and unprecedented modularity delivering elite performance for all.

CHOOSE A CALIBER:

The P320 is available in a variety of popular calibers.

CHOOSE GRIP FIT:

Interchangeable grip modules provide optimal grip circumference and access to controls without adding a bulky backstrap.

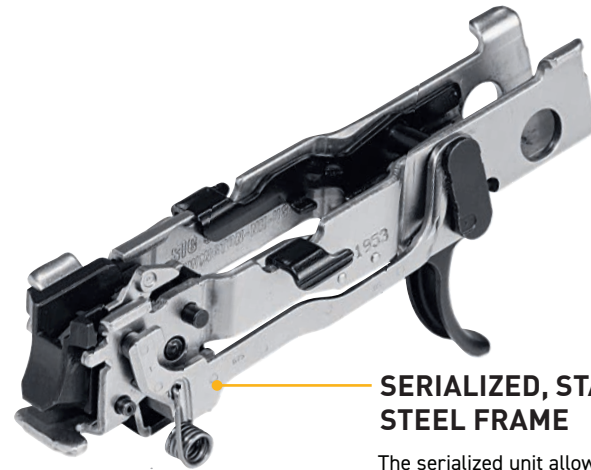

OPTIONAL X-CHANGE KITS

The modular pistol has arrived. Removing P320's fire control group unlocks hundreds of combinations.

CHOOSE STYLE AND A SIZE:

Provides the modularity to switch between multiple sizes, and between the standard and XGRIP.

SERIALIZED, STAINLESS STEEL FRAME

The serialized unit allows the user to change everything from size, to caliber, to grip at will.

3-POINT TAKEDOWN NO TRIGGER PULL OR TOOLS REQUIRED:

1. Remove magazine
2. Lock slide to the rear
3. Rotate takedown lever

ADDITIONAL SAFETY FEATURES:

- Striker Safety
- Disconnect Safety

THE WORLD'S MOST INNOVATIVE HANDGUN

With its unmatched modularity, unprecedented accuracy, and uncompromising reliability, the state-of-the-art SIG SAUER[®] P320 has quickly become one of the most sought after firearms on the market today. Chosen by all branches of the U.S. military, as well as law enforcement agencies across the country and around the world, the P320 redefines the modern handgun.

FULL-SIZE POLYMER HAMMER-FIRED

The SP2022 is a full-size polymer pistol inspired by the SIG classic line. The SP2022 features the same DA/SA trigger found in SIG SAUER[®] Classic Line pistols, with a durable, lightweight and wear-resistant polymer frame with an integrated M1913 accessory rail. The SP2022 pistols have earned an enviable reputation and proven track record of reliable performance in the hands of military and law enforcement professionals around the world.

CLASSIC FULL-SIZE PISTOL

The SIG SAUER P226 set the standard by which all other combat handguns are measured. The iconic P226 served alongside the U.S. Navy SEALs for decades and has seen action around the globe. With legacy of accuracy and reliability, and millions upon millions of rounds of proven performance, it has earned its reputation as the premiere combat pistol.

CLASSIC FULL-SIZE PISTOL

With origins dating back to the late 1970s, the P220 is considered by many to be the one that started it all for SIG SAUER. This classic has been reborn, with the same quality, accuracy and reliability that the Swiss Army has relied on for decades. The P220 was built to meet and exceed rigorous military standards. Available in both carry and full-size, the legendary P220 lives on, allowing you to put all-metal power in your corner.

P238® / P938®

MICRO-COMPACT PISTOLS

The 1911 inspired the micro-compact all metal P238 and P938, providing exceptional accuracy in an easy-to-conceal package. The P238, built to perform and please every shooter inspired the P938, which delivers the same accuracy and reliability with duty caliber performance. Together, the P238 and P938 form a family of classic firearms ready to stand the test of time.

CUSTOM WORKS

CELEBRATING ONE MILLION

The SIG SAUER® P320® and P365® have become two of the most popular and most influential guns in America, and to recognize their historic production milestones, SIG SAUER Custom Works developed a unique, one-of-a-kind commemorative to celebrate the passing of the historic 1 million mark.

In 2020, just over 18 months after its launch the one millionth P365 rolled off the assembly line. To commemorate this rapid ascension into the SIG SAUER history books, SIG SAUER Custom Works crafted the special edition one millionth P365.

P365 FEATURES

- ▲ High polished Nitron slide with 24K gold trigger and controls
- ▲ Engraving: One Millionth P365 and borders with 24K gold inlay
- ▲ The 1,000,000th P365 is a 9mm pistol with standard P365 features including X-RAY3 day/night sights

In 2019, the SIG SAUER P320 reached this historic milestone when serial number 58H1000000 was born. To celebrate SIG SAUER Custom Works created a special edition P320

P320 FEATURES

- ▲ An all-metal frame with a high-gloss polished finished
- ▲ Engraving: Scroll engraving with 14k gold inlay, and "1,000,000th P320"
- ▲ The 1,000,000th P320 is a 9mm pistol with standard P320 features including XRAY-3 day/night sights and an optic cut slide

The SIG SAUER P320

Tested to ensure extreme reliability and durability.

Proven to deliver unprecedented accuracy.

Chosen by the all branches of the US military and the world's most demanding users.

SIG CUSTOM WORKS ENGRAVING PROGRAM

From the very beginning, SIG SAUER® has defined the quality and reliability in firearms. Today, SIG Custom Works is creating unique firearms that redefine the standard for precision engineering and design excellence.

The SIG SAUER Custom Engraving Program provides personalized firearms to commemorate events such as deployments and retirements, as gifts, and fundraising for organizations. The mission of SIG Custom Works is to deliver a personalized design, elite performance, and uncompromising craftsmanship.

ENGRAVING CAPABILITIES

- ▲ Contrast engraving
- ▲ Premium-cut engraving
- ▲ Scroll work
- ▲ Gold inlay
- ▲ Personalized text

CUSTOM WORKS FCU

P320® CUSTOM WORKS FIRE CONTROL UNIT

INTRODUCING THE P320® FIRE CONTROL UNIT.

With its unprecedented modularity and unmatched capability, the P320 platform has become one of the most exciting pistols available to firearms enthusiasts today. The soul of the P320 and the driving force behind its modularity lies in the unique, patented design of its Fire Control Unit (FCU).

Now, SIG SAUER is offering the FCU as a standalone product, enabling an entirely new level of customization and personalization, giving users the ability to create virtually millions of combinations to suit any need and any level of personal style.

TITANIUM NITRIDE COATED: Exclusive to the Custom Works P320 FCU, the added protection of titanium nitride ensures a unique look, with superior corrosion resistance.

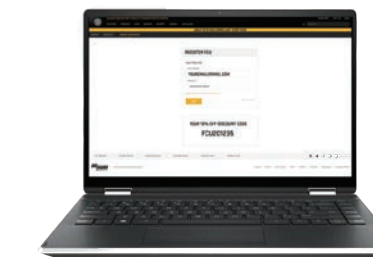

EXCLUSIVE FCU SERIAL NUMBER: Stand out from the rest with an "FCU" designated serial number for each Custom Works P320 Fire Control Unit.

LIGHTENED SKELETONIZED TRIGGER: Each Custom Works P320 FCU comes standard with a TiN-coated XSeries skeletonized trigger for a lighter, cleaner trigger pull.

CUSTOM WORKS FCU

COUNTLESS OPTIONS, ENDLESS POSSIBILITIES.

The SIG SAUER® P320® collective brings together a community of manufacturers and customizers focused on pushing the boundaries of creativity and innovation with the P320 platform. With the launch of the Custom Works P320 FCU, SIG SAUER has enabled and encouraged a broad community of creators to develop an ever-increasing number of parts, accessories, and uniquely customized P320 based firearms. Together, the P320: Collective represents the best the industry has to offer in aftermarket P320 performance parts and customized accessories. A vast selection of slides, barrels, grip modules, magazines, and accessories are available to ensure every finished Custom Works P320 FCU product is unique. As the list of available aftermarket products grow, the build options and possibilities increase exponentially.

The Custom Works FCU program is unprecedented in the firearms industry. The days of cookie-cutter pistol ownership are over. No longer will gun buyers be limited by the vision of a single company or designer. Now, they will be able to explore the endless possibilities of the Custom Works P320 FCU and be limited only by their imagination.

RIFLES

MCX VIRTUS

THE CHOICE OF THE WORLD'S ELITE

In use by more special operations forces around the world than any other AR, the SIG MCX VIRTUS is engineered for adaptability, sound suppression, and extreme longevity. Featuring user-changeable, cold hammer-forged barrels available in both 5.56 NATO and 300 BLK, with the SIG internal recoil system offering reduced recoil, and a folding stock that makes it the ultimate compact rifle platform.

5.56NATO **300BLK**

SHARED FEATURES

- ▲ SIG MATCHLITE™ Duo trigger
- ▲ Interchangeable cold hammer-forged barrel
- ▲ M-LOK® free-float handguard with expanded valve windows
- ▲ Ambidextrous selector, mag release, and charging handle
- ▲ Adjustable gas valve
- ▲ Stealth gray upper/lower receivers and handguard
- ▲ Three prong flash hider

MCX VIRTUS

716i TREAD

LIGHTWEIGHT BIG BORE AR PLATFORM

With a lightweight design and accuracy, the 716i has become one of the best known big bore AR's on the market today. Featuring an ambidextrous lower receiver, a precision carbon steel barrel, and a free-floating M-LOK® handguard, the 716i provides a versatile platform for long range shooting and hunting while maintaining a lightweight design for easy carry. Now available as part of the TREAD® rifle platform, the TREAD 716i is easily customizable with available TREAD accessories.

7.62x51NATO

FEATURES

- ▲ Free-floating M-LOK handguard
- ▲ Ambidextrous selector, mag release, and charging handle

TREAD

THE COMPLETE TREAD SYSTEM

PURPOSE-BUILT, CUSTOM ACCESSORIES THAT GIVE YOU THE FREEDOM TO GROW AND CUSTOMIZE

05
Three Chamber Compensator
Redirects gasses to reduce felt recoil.

06
15" Lightweight M-LOK® Handguard
Compatible with all M-LOK rail systems. Quickly move between TREAD free-float handguards by removing two screws.

* 13" Handguard - Standard on M400 TREAD COIL

03
Vertical Grip Kit
Multiple kits available for the freedom to customize your grip.

* Standard on M400 TREAD COIL

04
TREAD ROMEO5 OPTIC
2MOA dot with 10 illumination settings, MOTAC, and a 50k hour battery life.
* Standard on M400 TREAD COIL

02
Flip-Up, Back-Up Locking Iron Sights
Compatible with Picatinny rail systems. Tool less windage and elevation adjustment. Button less flip-up which locks in position.

07
Ambi-Charging Handle
Optimized for right or left-hand operation. Solid construction for prolonged use, and built for maintenance-free reliability.

01
Flat Blade Two-Stage Trigger
Vertical trigger profile for a precise feel, and crisp break for maximum performance.

* Standard on M400 TREAD® COIL

SIG FURY™

FURY

Shot on location in the San Juan and Rio Grande National Forests, permission granted under special use authorization.

SIG FURY ACCUBOND® AMMUNITION

SIG FURY Hybrid case ammunition represents the biggest innovation in ammunition technology in more than 50 years, and now SIG SAUER® is pairing this revolutionary case design with the advanced Accubond bullet from Nosler®. SIG FURY Accubond hunting ammunition delivers increased speed and greater energy on target for maximum effectiveness.

FEATURES

- ▲ FURY hybrid case technology delivers greater velocity for increased on-target performance
- ▲ Utilizes the Nosler Accubond 150 grain big game bullet
- ▲ Hybrid case designed for greater energy transfer in shorter barrel length
- ▲ Loaded to exacting standards for consistency and reliability

REVOLUTIONARY HYBRID CASE AMMUNITION

Developed for the U.S. Military's Next Generation Weapons System, the new SIG FURY™ hybrid-case ammunition outperforms standard ammunition in similar calibers, with greater velocity, decreased bullet drop and increased energy on target. SIG FURY hybrid-case ammunition, the next generation of ammunition is here.

SIG FURY HYBRID CASE AMMUNITION. THE NEXT GENERATION OF AMMUNITION IS HERE.

PERSONAL DEFENSE

JACKETED HOLLOW POINT PISTOL CARTRIDGES

SIG ELITE DEFENSE V-CROWN® defensive rounds combine perfected material specifications and fine-tuned design innovations. Featuring a stacked hollow point cavity, to deliver exceptional on-target energy, with maximum weight retention and optimal expansion for the ultimate in stopping power.

FEATURES

1. V-Shaped jacket with skives and scores to provide controlled, uniform expansion
2. Patented stacked hollow point bullet design with additional hollow point cavity
3. Unique, toothed cannellure ensures maximum weight retention and terminal expansion
4. Coated nickel cases provide enhanced lubricity, superior corrosion resistance, and reliable feeding and extraction
5. Low-flash propellant
6. Consistent primers

RANGE/TRAINING

PERFORMANCE TRAINING AMMUNITION

SIG SAUER® full metal jacket cartridges are engineered to deliver maximum performance so you can train harder with greater accuracy and reliability. Produced with the cleanest burning powders, premium brass cases and the most consistent primers available.

FEATURES

1. Full metal jacket projectiles ballistically matched to ensure the same point-of-impact as personal defense and duty ammunition
2. Lead core
3. Precision manufactured brass cartridge cases
4. Clean burning powders
5. Consistent primers

MATCH GRADE

PRECISION MATCH GRADE RIFLE CARTRIDGES

SIG Marksman and Marksman Elite rifle cartridges are engineered to excel in today's precision auto-loading platforms, as well as bolt-action rifles. Utilizing optimized shell case metallurgy and premium primers, each round is precision-loaded using state-of-the-art, electromechanical monitoring for geometric conformity, and all are 100% inspected.

FEATURES

1. Open tipped match designed to maximize BC
2. Thin jacket design for precise concentricity
3. Bullet weights are held within +/- 0.3 grains
4. Temperature-stable propellants
5. Brass cases are 100% inspected and lot controlled
6. Industry leading primers are unmatched in power and performance

- ▲ Minimal Velocity Variation
- ▲ Precision Loaded for Conformity
- ▲ Renowned Sierra® Matching® Projectile
- ▲ Temperature-Stable Propellants

COMPETITION

COMPETITIVE PISTOL CARTRIDGES

SIG Match Elite Competition loads have been designed in conjunction with Team SIG, for the serious competitive shooter who needs an accurate and completely reliable competitive round. Currently offered in a 9mm, 115 and 147 grain projectile and loaded in a premium nickel case for improved function and feeding. The round utilizes a reduced charge weight with a fast-burning powder, so felt recoil has been reduced significantly for improved accuracy, better gun control, and higher scores.

FEATURES

1. V-Shaped jacket with skives and scores to provide controlled, uniform expansion
2. Patented stacked hollow point bullet design with additional hollow point cavity
3. Unique toothed cannellure ensures maximum weight retention and terminal expansion
4. Coated nickel cases provide enhanced lubricity, superior corrosion resistance, and reliable feeding and extraction
5. Low-flash propellant
6. Consistent primers

MAX MICHEL CAPTAIN TEAM SIG

"As a World Champion competitive shooter, I want and need the best. Therefore, I wanted to create a load that was soft shooting, yet clean, consistent and extremely accurate. We found that with our 147gr V-Crown projectile, nickel casing and match propellant. Together, the folks at the SIG SAUER Ammunition and Team SIG have created a round that is extremely accurate, clean and consistent. I couldn't be prouder to have been a part of such a successful product. When the 9mm 147gr Match Elite is fueling my X5 Legion, I truly feel there is no better combo out there and it gives me a clear advantage on the range."

TIPPED LEAD CORE HUNTING CARTRIDGES

SIG SAUER® ELITE SERIES TIPPED ammunition gives the serious sportsman unmatched, long-range accuracy, with devastating on-target performance. Massive expansion delivers instant knockdown and terminal energy on small to medium game.

FEATURES

1. Translucent yellow tip increases ballistic coefficient, improves terminal performance, and aids in consistent reliable chambering
2. Exclusive jacket design delivers devastating on-game performance for small to medium game at extended ranges
3. Concentric, blackened jacket ensures reliable expansion
4. Enhanced boat tail design provides superior flight characteristics over a wide range of velocities
5. Custom formulated and precision loaded powders deliver consistent velocities regardless of atmospheric conditions
6. Nickel-plated cases aid in extraction while providing significant anti-corrosion qualities
7. Industry leading primers are matched to proprietary powder blends to ensure dependable ignition

HUNTING

ACCUBOND® HUNTING CARTRIDGES

SIG SAUER® ELITE HUNTER TIPPED ammunition gives the serious sportsman unmatched, long-range accuracy, with devastating on-target performance. Massive expansion delivers instant knockdown and terminal energy on small to medium game.

FEATURES

1. Unique white polymer tip assures accuracy, smooth chambering and eliminates tip damage during recoil
2. Tapered copper-alloy jacket for lethal penetration and uniform expansion with maximum weight-retention and minimal barrel fouling
3. Proprietary bonding process eliminates all possibility of component separation
4. Lead-alloy core engineered for balanced expansion
5. Boat-Tail Design configuration combines with the streamlined polymer tip for long-range performance and for easier loading
6. Custom formulated and precision loaded powders deliver consistent velocities regardless of atmospheric conditions
7. Nickel-plated cases aid in extraction while providing significant anti-corrosion qualities
8. Industry leading primers are matched to proprietary powder blends to ensure dependable ignition

HUNTING

SOLID COPPER HUNTING CARTRIDGES

SIG ELITE SERIES COPPER rounds use premium-quality powders and primers for minimum velocity variation, and yield a 1.8x diameter expansion. Perfected for easy rifle feeding, with an optimized nose geometry, and premium nickel-plated shell casings that deliver consistently reliable accuracy for taking down game.

FEATURES

1. Optimized nose geometry for easy rifle feeding
2. Consistent 1.8X diameter expansion
3. Lead-free monolithic copper bullet
4. Proprietary powder blends to ensure dependable ignition
5. Premium nickel-plated shell casings that deliver consistently reliable accuracy for taking down game
6. Industry leading primers are matched to proprietary powder blends to ensure dependable ignition

ELITE SERIES VARMINT & PREDATOR CARTRIDGES

SIG Elite Series Varmint & Predator rounds utilize yellow tipped projectiles designed specifically for explosive expansion and unmatched accuracy. All loads feature projectiles yielding higher muzzle velocities and aerodynamic bullet designs to maximize flat trajectory.

FEATURES

1. Yellow tip increases ballistic coefficient, improves terminal performance, and aids in consistent reliable chambering
2. Jacketed lead-core bullet designed for explosive fragmentation and quick take-down on varmints
3. Custom formulated and precision loaded powders deliver consistent velocities regardless of atmospheric conditions
4. Brass cases aid in extraction while providing significant anti-corrosion qualities
5. Industry leading primers are matched to proprietary powder blends to ensure dependable ignition

BAGGED BRASS

BAGGED BRASS / PRIMED BAGGED BRASS

Elite Performance Ammunition shell cases are engineered to exacting tolerances and available for multiple pistol and rifle calibers. The geometric consistency of these premium brass cases ensures each primer is held tightly in its pocket. Flash holes are precise with no burrs and the superior metallurgical properties of the SIG SAUER® cases enable repeated reloading. All Elite Performance rifle shell cases are induction annealed for consistent bullet retention.

THE BEST RELOADING BRASS
MANUFACTURED IN THE U.S.A.

FEATURES

1. Engineered for precision hand loaders
2. Exceptional concentricity of the mouth for improved accuracy
3. Engineered to exacting standards; each brass case undergoes rigorous in-line and post-production quality assurance testing to ensure a flawless casing
4. Flash holes are precise with no burrs
5. Superior metallurgical properties of the SIG SAUER® cases enable repeated reloading
6. SIG Elite rifle shell cases are induction annealed for consistent bullet retention
7. All shell cases are 100% inspected by advanced metrology equipment that measures every dimensional aspect of the case.

ELECTRO-OPTICS

ELECTRO-OPTICS

SIG SAUER® ELECTRO-OPTIC INFINITE GUARANTEE™

- Unlimited Lifetime Guarantee
- No Warranty Card Required
- No Receipt Required
- No Time Limit Applies
- No Charge
- Fully Transferable

ELECTRONIC AND TRITIUM LIMITED 5-YEAR WARRANTY

Covers any defects in materials and workmanship in the electronic and tritium components of illuminated riflescopes/sights, pistol sights, electronic sights, flashlights, lasers, binoculars, spotting scopes, and rangefinders for five years from the date of manufacture.

EMBEDDED APPLIED BALLISTICS®

ABU™ Applied Ballistics Ultralight™

Applied Ballistics Ultralight is the streamlined ballistic calculator developed with Applied Ballistics and integrated into all BDX® products. Ballistic solutions are provided out to a maximum of 800 yards.

ABX Applied Ballistics External

Applied Ballistics External allows external devices such as a Kestrel or Garmin Foretrex to compute AB Elite solutions and communicate the firing solution back to select BDX enabled devices.

ABS™ Applied Ballistics System

Applied Ballistics System embeds Applied Ballistics Elite on-board select products with integral environmental sensors to calculate complete ballistic solutions out to the effective range of any firearm.

D.A.R.C.

(Dark Adaptive Reticles & Coatings) Specialized lens coatings and reticle brightness settings that are optimized for use with GEN 3+ night vision devices

MAGNETAC™

MAGNETAC (Magnetic Activation) A sensor in the optic detects a Neodymium magnet inside a compatible holster, to automatically turn the optic off when holstered, conserving battery life. When the weapon is drawn from the holster, the optic instantly turns on to the last setting used.

SBT™ SIG Ballistic Turret

A custom, laser-etched elevation dial on most SIG SAUER® TANGO® and WHISKEY® riflescopes

Matched to the ballistics of the shooter's system at no extra cost

Inputs bullet specifications, ballistic coefficient, muzzle velocity, elevation, and other environmental factors

Allows for correct bullet drop compensation and pinpoint accuracy at any range

LOCKDOWN™ Zero System

Zero stop-locking turret allows a rapid return to zero

Eliminates concern about how far to turn the elevation dial to return to zero

STEALTH ID™

Deflection armor trapezoidal surfacing breaks up the shape and visibility of the optic

Slide serrations and grip checkering add function to the form of all SIG SAUER Electro-optics

HELLFIRE™ Reticle

Electronically illuminated utilizing an advanced fiber optic technology

Varies the light intensity of the central aiming point from night vision compatible to HELLFIRE bright for daylight illumination

Results in a bright, defined aiming point for precision shot placement in any condition

LEVELPLEX® Digital Anti-Cant System

Utilizes an Integrated Digital Level that is Accurate to +/- 0.5° Available in any WHISKEY5 or TANGO6 with a side focus

Auto LEVELPLEX Mode Calibrates Level Sensitivity to Distance Ranged to Target

MEGAVIEW™

Provides massive field of view (FOV), allowing faster target acquisition

Enhances awareness of objects in the shooter's periphery

ALT™ Aspheric Lens Technology

Eliminates aberration, reduces weight, and helps to focus the projected image through the lenses

Superior low distortion optical performance

SPECTRACOAT™

Highly efficient, ultra-wide broadband, anti-reflection lens coatings

Reduces surface reflections to extremely low levels across the entire visible spectrum

Provides superior light transmission

HDX® High Definition Transmittance

Comprises both high definition (HD) and high transmittance (HT) glass

Ultra-high resolution, optical performance, and light transmission

LENSARMOR™

Abrasion-resistant lens coatings

Extreme durability ensures the lenses on the scope will stay sharp, bright, and clear

LENSHIELD™

Mil-spec oleophobic coating

Sheds water, oil, and gunk, to ensure a clean sight image at all times

MOTAC™ Moton Activated Illumination

Motion-sensing technology

Powers up illumination when sensing motion, and powers down when it does not, extending battery life

SOLAR POWERED ILLUMINATION

Powered by a solar cell

Extends runtime and improves daylight brightness of the reticle with or without a battery

TRUHold™

Lockless zeroing system

Utilizes quad adjustment springs designed and torture-tested to endure handgun recoil and return to zero shot after shot

OIS Optical Image Stabilization

Proprietary SIG optical image stabilizer system

Gyroscopically stabilized to cancel out unwanted shaking and vibrations that can blur an image, especially at higher magnification levels

AMR™ Angle-Modified Range

Ranging technology using an on-board inclinometer

Reads incline / decline angle and modifies the effective ballistic shooting range to the target

Equivalent horizontal range, that integrates perfectly when used with SIG ballistic turret dials

LIGHTWAVE DSP™ Digital Signal Processing

Leverages HyperScan, and advanced power management technique, providing the fastest refresh rate in scan mode (4 times per second)

Uses the latest generation field programmable gate array (FPGA)

Reduces false positives while finding weak or distant targets

HYPERSCAN™

Features the fastest, most accurate range acquisition algorithms by analyzing targets 4 times per second and displaying the results on stationary or moving targets within a quarter of a second.

LUMATIC OLED DISPLAY

Proprietary OLED (Organic Light Emitting Diode) display ambient light sensor continuously monitors light conditions and adjusts the display brightness accordingly

No other display offers this adaptive ability to prevent the shooter's pupil from constricting in low-light conditions

90° POWERCAM™ MOUNT

Quick flip away mount for fast transitions from near to far distance targets

No button actuator for rapid single-handed operation point for precision shot placement in any condition

KinETHIC™ Kinetic Energy Indicator

KinETHIC Kinetic Energy Indicator

Allows a hunter to set a threshold in either ft-lbs or fps for the ethical harvest of game animals. BDX will compute distance ranged and indicate when you drop below the user-set threshold for energy or speed of bullet on target

BDX™ 2.0

Software update that includes a new easy mode for quick BDX setup out of the box, including:

BDX kits come paired and bonded

BDX QuickBond™ system gives users the ability to bond two BDX enabled devices without the smartphone app

BDX equipped KIL0® rangefinders preloaded with ballistic groups for centerfire rifles, muzzleloaders, and crossbows

100% compatible with BDX smartphone app to access the advanced BDX features in configuration options

WEAPONSGRADE Polymer

Optimized for use with polymer pistols

Lightweight textured polymer

Ballistic Data Xchange

Powered by

WHAT IS BDX?

SIG SAUER[®] has built on the success of BDX, adding features and benefits that allow hunters and shooters to 'hit the ground running' with their BDX systems. All BDX rangefinders now come preprogrammed with 9 ballistic profiles that cover most centerfire rifle cartridges, as well as crossbows and muzzleloaders. BDX combo kits will now come pre-bonded from the factory. All users have to do to use their systems now is mount and zero their riflescopes. If users want to unlock the complete feature set of BDX, they are still able to do this via the smartphone app.

BDX RANGEFINDER

BDX kits come pre-bonded right out of the box

When purchasing a rangefinder and riflescope together there is no setup necessary. Simply mount and zero your riflescope and you are ready to go.

QuickBond™ for app-less bonding of BDX equipped rangefinders and sights

There is no need for the smartphone app to connect your BDX devices. Simply press and hold two buttons and your BDX rangefinder will bond with the nearest BDX enabled sight.

Pre-loaded ballistic groups now available on KILO[®] BDX rangefinders to quickly get you on target

Every BDX rangefinder now comes preloaded with 9 distinct ballistic groups. These groups represent the ballistics for each popular centerfire caliber available, as well as crossbows and muzzleloaders. Simply pick the group that matches your caliber.

Download the BDX app to unlock the full advanced capabilities and features of the BDX system

Setup a custom profile utilizing the Applied Ballistics[®] bullet library and the exact muzzle velocity of your firearm. BDX will do the rest.

BDX RIFLESCOPE

The powerful SIERRA3BDX and SIERRA6BDX riflescopes revolutionize the art of holdover calculation. Again, set your ballistic profile in the SIG BDX app, sync the app with your riflescope and then configure multiple holdover points in the digital ballistic reticle. When you view your target through the reticle each of your exact holdover points is illuminated. No more turrets to adjust or calculations to make.

BDX SYSTEMS

When used together, KILO BDX rangefinders and SIERRA3BDX riflescopes combine to create the most advanced optics system available on the market today. Simply configure your ballistics profile in the BDX app, pair your KILO BDX rangefinder with the app, and then bond it to your SIERRA3BDX riflescope. When you range your target the KILO BDX rangefinder automatically sends your specific holdover data to your SIERRA3BDX riflescope giving you an illuminated holdover dot. It's simple and fast.

CONNECT THE DOT[®].

THE WORLD'S MOST ADVANCED...

RIFLESCOPES

- ▲ BDC reticle is customized to shooter's ballistics and environmental profile prior to hunting
- ▲ BDC reticle can be set with up to eight holdover dots at any distances out to 800 yards
- ▲ Digital Focal Plane™ reticle scales with zoom like a first focal plane riflescope
- ▲ HD Glass and Spectracoat™ lens coatings
- ▲ LEVELPLEX[®] digital anti-cant system

RANGEFINDERS

- ▲ Embedded Applied Ballistics[®] Ultralite engine with extensive bullet library with support for G1/G7 drag curves
- ▲ Save up to 25 custom ballistic profiles in the SIG BDX app
- ▲ Active ballistic profile and environmental sync to rangefinder
- ▲ Windage and elevation holds in MOA or MILS with every target ranged
- ▲ Lightwave DSP™ leverages 4x/second HyperScan™ and RangeLock technologies for the fastest ranging performance

OPTICS SYSTEM

SIG SAUER[®] Electro-Optics transforms hunting with the unprecedented simplicity and accuracy of BDX[®]. KILO[®] BDX rangefinders use your ballistics and Bluetooth[®] to illuminate the exact holdover dot in SIERRA3BDX riflescopes. For the most accurate and ethical shot, just **CONNECT THE DOT[®]**.

RIFLESCOPES WITH BALLISTIC DATA XCHANGE

Built upon SIERRA3 award-winning technology, and the SIG SAUER® BDX Ballistic Data Xchange technology, the SIERRA6 family of riflescopes provides the hunter or marksmen with an intelligent auto-holdover specific to their ballistics, target, and environment. Pairing a SIERRA6 to a BDX equipped rangefinder allows users to bring the capability of Applied Ballistics® into the field without the need for a mobile device.

30mm Maintube **34mm Maintube**

SHARED FEATURES

- ▲ Blue LED on eye piece indicates when Bluetooth® is paired to KILO® BDX rangefinder
- ▲ HDX® glass and coatings for the best optical quality in its class integrated BDX ballistic data xchange 2.0 with up to 95% light transmission
- ▲ Advanced HDX 6x optical system
- ▲ Automatic hold-over dot on a digital focal plane
- ▲ Ballistic profiles compatible with centerfire, muzzle loader, and crossbow platforms
- ▲ Innovative KinETHIC™ Kinetic energy transfer indicator for ethical shots
- ▲ Dependable waterproof and fog-proof performance (IPX-7 for complete immersion up to 1 Meter)
- ▲ Argon purged for an enhanced lifetime of performance
- ▲ LEVELPLEX® with auto LEVELPLEX mode

Ballistic Data Xchange

BLUE LED FLASHES WITH EACH RETICLE UPDATE

SIDE FOCUS ALLOWS USERS TO REMOVE PARALLAX

ADVANCED HDX 6X OPTICAL SYSTEM

SIERRA6BDX™ 5-30X56

SOSBDX65111

- ▲ 34mm maintube
- ▲ Digital focal plane BDX-R2 reticle
- ▲ Seamlessly pairs with BDX enabled devices to provide exact holdovers based on measured target distances
- ▲ User-customizable ballistic data provides hold-over dots
- ▲ Side focus allows users to remove parallax

The BDX-R2 Digital Ballistic Reticle GEN II High Resolution LED display doubles the amount of available hold-over dots giving users greater accuracy and resolution to each shot. The reticle has aiming aids to help align elevation and wind indicators.

KILO3000BDX™

BDX® BALLISTIC DATA XCHANGE LASER RANGEFINDER

Featuring SIG SAUER® BDX® technology, the KILO3000BDX is one of the world's most advanced laser rangefinders. When paired with a BDX enabled product, the onboard Applied Ballistics Ultralight™ calculator sends ballistic drop data via Bluetooth® directly to the BDX sight, providing an illuminated holdover dot and wind hold. Download the free BDX App for iOS or Android to setup ballistic profiles and synchronize custom profiles to your KILO® for exact ballistic solutions.

10X42mm

FEATURES

- ▲ HyperScan™ technology provides 4 range updates per second in scan mode while RangeLock™ reports the last range result when ranging distant targets
- ▲ Embedded Applied Ballistics Ultralight with bullet database and support for G1/G7 drag curves
- ▲ Fully multi-coated ED glass lenses and phase-coated prisms for high resolution and high contrast will range up to 5,000 yards with results displayed to the nearest 1/10th yard
- ▲ Lumatic OLED display, continuously monitors light conditions & adjusts the display brightness accordingly
- ▲ Multi-position twist-up eyecups provide a custom fit for each user
- ▲ Compact, lightweight aluminum housing with dual diopter adjustment
- ▲ User-selectable target modes featuring LAST or BEST mode for pinpoint accuracy

THE CHOICE OF THE U.S. ARMY AND SPECIAL OPERATIONS

TANGO6T riflescopes have been selected by the U.S. Army and USSOCOM to deliver unmatched performance and optical clarity when it matters most. TANGO6T riflescopes are MIL-STD810G tested and approved and are assembled in the U.S.A.

30mm Maintube

SHARED FEATURES

- ▲ 6x super-zoom advanced optical system
- ▲ First and second focal plane reticles
- ▲ Throwlever included with all SKUs
- ▲ Fast focus eyepiece
- ▲ Waterproof (IPX-8 rated) and fog-proof performance
- ▲ Night vision illuminated reticle settings with locking dial
- ▲ Laser engraved mounting line to align riflescope to scope rings
- ▲ Flat dark earth anodized finish
- ▲ Assembled in the U.S.A.
- ▲ Designed for MSR/AR platforms

LONG RANGE PRECISION RIFLESCOPES

With a 4X zoom first-focal plane design, illuminated glass reticles, and revolutionary resettable zero turret, TANGO4 riflescopes are the ideal solution for mid to long-range tactical engagements, designated marksmen, competitive shooters, and hunters.

30mm Maintube

SHARED FEATURES

- ▲ 4X super-zoom advanced optical system
- ▲ Lensarmor™: Abrasion-resistant lens coatings
- ▲ Built-in throw lever included
- ▲ Resettable zero turret
- ▲ Low Dispersion (LD) glass provides optical clarity for any situation
- ▲ Lensshield™: Proprietary Mil-Spec oleophobic coating for clean images
- ▲ Waterproof (IPX-7 rated) and fog-proof performance
- ▲ Stealth ID™: Deflection armor surfacing for less detection

TANGO4™ 6-24X50 RIFLESCOPE

30MM MAINTUBE
SOT46111 / SOT46112 / SOT46113 / SOT46114

- ▲ Designed for MSR/AR and bolt action platforms
- ▲ Long-range precision shooting, tactical engagements, and long-range hunting
- ▲ Fiber optic power indicator
- ▲ Offered in FFP with multiple reticle options
- ▲ LOCKDOWN® zero system

LENSARMOR™ Abrasion-resistant lens coatings for extreme durability ensures the lenses on your scope will stay sharp, bright, and clear.

STEALTH ID™: DEFLECTION ARMOR SURFACING FOR LESS DETECTION

RESETTABLE ZERO TURRET

LOW DISPERSION (LD) GLASS PROVIDES OPTICAL CLARITY

HUNTING RIFlescOPES

The WHISKEY3 riflescopes feature low dispersion glass, rugged chassis, and capped windage and elevation turrets. It's rugged industrial design provides reliability and protection from the elements.

1 inch Maintube

SHARED FEATURES

- ▲ 3X zoom optical system
- ▲ Stealth ID™: Deflection armor surfacing
- ▲ Lensarmor™: Abrasion-resistant lens coating
- ▲ HELLFIRE® Reticles: Fiber optics to vary intensity of central aiming point
- ▲ Low dispersion (LD) glass provides industry leading optical clarity
- ▲ European-style eyepiece for a smooth, fast, and precise reticle adjustment
- ▲ Waterproof (IPX-7 rated) and fog-proof performance
- ▲ 3X optical zoom, illuminated, and non-illuminated reticles
- ▲ Offered in second focal plane (SFP) and multiple reticles

WHISKEY3™ 3-9X40

1" MAINTUBE
SOW33202 / SOW33204 / SOW33206

- ▲ Designed for traditional / dangerous game hunting and MSR/AR platforms
- ▲ Extended long range scenarios, as well as low light shooting, and recreational shooting across a wide range of calibers
- ▲ Offered in SFP with multiple reticle options

HELLFIRE Reticle is an electronically illuminated reticle system utilizing advanced fiber-optic technology to vary the light intensity of the central aiming point from dim to HELLFIRE bright for daylight illumination.

DIGITAL LASER RANGEFINDERS

The KILO family of Digital Laser Rangefinders is engineered for extreme accuracy. KILO products are the most advanced, and yet simple to use, rangefinders on the market today. Updating at 4X per second in HyperScan mode, all KILO rangefinders come with proprietary Lightwave DSP™ technology, are lightning fast, and amazingly accurate.

7X25 mm

FEATURES

- ▲ Revolutionary Lightwave DSP technology for the fastest and longest distance rangefinder engine
- ▲ SpectraCoat™ anti-reflection coatings for superior light transmission and optical clarity.
- ▲ HyperScan™ provides 4 range updates per second in scan mode while RangeLock reports the last range result when ranging distant targets
- ▲ Lumatic Display™ automatically calibrates display brightness to changing ambient light conditions
- ▲ Advanced rangefinder featuring an Embedded Applied Ballistics® elite calculator and Bluetooth® for synchronizing with a free Applied Ballistics app. Available on both IOS® and Android® platforms
- ▲ Integrated temperature, humidity, pressure, and compass

KILO2400ABS™ RANGEFINDER

7X25MM
SOK24701

- ▲ Ranges up to 2 miles
- ▲ Advanced rangefinder featuring an Embedded Applied Ballistics Elite™ calculator and Bluetooth® for synchronizing with a free Applied Ballistics app. Available on both IOS® and Android® platforms
- ▲ Integrated temperature, humidity, pressure, and compass
- ▲ New milling reticle with 2.4 MRAD inner diameter and 3 MRAD outer diameter center aiming circle. Milling features are 5 MRAD to the dots and 10 MRAD to the lines
- ▲ Includes a tripod adapter, smartphone jack windmeter, ballistic nylon molle kit bag, tactical pen/stylus, lanyard, and 3 spare batteries
- ▲ Assembled in U.S.A.

RANGES	Up to 1400 YDS DEER	Up to 1800 YDS TREES	Up to 3400 YDS REFLECTIVE
--------	---------------------------	----------------------------	---------------------------------

EMBEDDED APPLIED BALLISTICS® ELITE CALCULATOR AND BLUETOOTH

SPECTRACOAT™ ANTI-REFLECTION COATINGS

INCLUDES TRIPOD ADAPTER, WINDMETER, PEN/STYLUS, MOLLE KIT BAG, & MORE.

Configurable reticle with 3 options: Center Aiming Circle only, Center Aiming Circle and Horizontal Milling Grid, and Center Aiming Circle and Horizontal and Vertical Milling Grid

KILO1600™ RANGEFINDER

6X22MM
SOK16608

- ▲ Ranges up to 2000 yards with Lightwave DSP™ technology
- ▲ Features line of sight (LOS) or angle modified range (AMR™) units in yards meters to one-tenth Y/M resolution
- ▲ Transparent OLED display
- ▲ User-selectable target modes featuring LAST or BEST for pinpoint accuracy
- ▲ Simplified user interface with RANGE and MODE buttons only

MICRO OPEN REFLEX SIGHT

The fastest, most accurate, ultra-compact micro reflex sight. The ROMEZero is optimized for everyday concealed carry, and for pistols with slim slides. The sight features a ruggedized, WeaponsGrade textured polymer body and the Spectracoat™ HD Polymer lens system.

The ROMEZero enables rapid target acquisition in an everyday carry package at an iron sight price.

1X24mm

FEATURES

- ▲ 8 vivid, user configurable daytime illumination levels
- ▲ MOTACT™ (Motion Activated Illumination System) that powers up when it senses motion and powers down when it does not
- ▲ Parallax free
- ▲ Highly efficient, point source LED emitter for a crisp dot that is 8 times more efficient than conventional red dots
- ▲ Integrated rear sight notch for co-witness with a standard height P365™ front sight
- ▲ Assembled in U.S.A.

ROMEZero IS COMPATIBLE WITH

- ▲ Direct mount to P365XL™
- ▲ Shield RMS-c footprint
- ▲ J Point™ footprint
- ▲ Delta Point® Pro footprint

ROMEZero™

1X24MM
SOR01300 (3 MOA) / SOR01600 (6 MOA)

- ▲ Spectracoat HD polymer lens with 10 times the impact resistance over traditional glass lenses
- ▲ WeaponsGrade Ultralite polymer housing optimized for use with concealed carry pistols and slim slide profiles such as single-stack 1911s and subcompact firearms
- ▲ Stippling pattern on the housing matches P365™ and P365XL™ grip pattern, for an integrated look

Assembled in the U.S.A.

Designed for use on SIG SAUER® P365 pistols with optics ready slides

Rear View

MINIATURE OPEN REFLEX SIGHT

Designed for fast, responsive target acquisition, and accuracy. The miniature open-reflex ROME01PRO Red Dot sight was engineered to withstand the punishment of diverse environments.

1X30mm

SHARED FEATURES

- ▲ Molded glass aspheric lens for superior light transmittance and zero distortion
- ▲ Manual illumination controls that remember your last-used settings
- ▲ 3 or 6 MOA red dot with multiple brightness settings for rapid target engagement under a full range of lighting conditions
- ▲ MOTACT™ (Motion Activated Illumination) powers up when it senses motion and powers down when it does not
- ▲ Top-loading CR1632 battery, allowing for quick battery replacement without removal from the firearm
- ▲ Waterproof (IPX-7 rated for complete immersion up to 1 meter) and fog-proof performance
- ▲ Designed for modern semi-automatic pistols, MSR platforms and shotguns
- ▲ TruHold™ Lockless Zeroing System that utilizes twin adjustment springs designed to endure handgun recoil and return to zero shot after shot

ROME01PRO IS COMPATIBLE WITH

P320-M17, P320-M18, P320 XFIVE LEGION, P320 XCOMPACT, P320 XFULL, All PRO-CUT Slides, P320 Pro Series, and all RXP pistols and slides

*Please note, this product is not compatible with slides cut to accept a standard ROME01, such as GEN1 RX pistols

ROME01PRO™

1X30MM
SORIPI00 (3 MOA, BLK) / SORIPI01 (6 MOA, BLK) / SORIPI03 (6 MOA, FDE)

- ▲ Aircraft grade CNC aluminum housing ensures a lifetime of reliable service
- ▲ Ruggedized protective steel shroud included for extreme durability
- ▲ New emitter offers a brighter dot, more brightness settings (10 daylight and 2NV), and a longer battery life (20,000 hours)
- ▲ Designed to fit newer SIG SAUER® PRO-CUT slides

ROME01™

1x30MM
SORI1000 (3MOA) / SORI1600 (6MOA)

- ▲ ROME01 is compatible with legacy optics-ready SIG SAUER® pistols, such as the original P320RX, Classic Line RX, and P320 X-FIVE® pistols. It is not compatible with newer SIG SAUER optics-ready pistols that have the "PRO" slide cut. Those pistols accept the new ROME01PRO.

ROME01 Shroud Kit
Also Available.

MIL-SPEC RED DOT SIGHT

The ROME02 is built for use in adverse conditions. A 3 MOA or 6 MOA red dot with 15 brightness settings ensures rapid target engagement. The sight features a high-efficiency, point source LED emitter and molded aspheric glass lens, utilizing a high-performance red notch reflector coating for excellent brightness and light transmittance with zero distortion. The 7075 aluminum housing and ruggedized steel shrouds protect the ROME02 from extreme impacts and drops. The ROME02 maintains 25,000 hours of battery life, comes with MOTAC to automatically power the optic on and off, and is compatible with all SIG pistols that have the newer PRO-CUT slide.

1X30mm

FEATURES

- ▲ 25,000+ hour battery life at medium brightness settings with extreme brightness for outdoor use, plus multiple night vision levels
- ▲ Integrated anti-reflective rear sight notch for a full sight picture and co-witness with a front suppressor-height sight
- ▲ Spring-loaded side battery tray, released by a push button that can be activated without tools
- ▲ 2 steel shrouds included for 3 different optic configurations, including fully enclosed and sealed with a polycarbonate rear window
- ▲ MOTACT™ (Motion Activated Illumination System) that powers up when it senses motion and powers down when it does not
- ▲ MAGNETACT™ (Magnetic Activation) that automatically turns the optic off when holstered in a compatible holster, and instantly turns the optic on when drawn from the holster
- ▲ D.A.R.C. (Dark Adaptive Reticles & Coatings technology) provides ideal reticle brightness and target clarity while using night vision devices
- ▲ High-strength 7075 CNC aluminum housing ensures a lifetime of Service
- ▲ Dependable waterproof (IPX-7 rated for complete water submersion up to 1 meter) performance

1x35MM
SOR31004 (3 MOA) / SOR32004 (6 MOA)

- ▲ The ideal sighting solution for MSR rifles, shotguns, carbines, submachine guns, and full-size handguns
- ▲ Comes with a low-profile M1913 picatinny mount. An absolute co-witness riser mount is also available as an accessory
- ▲ Crisp 3 or 6 MOA red dot for fast and accurate shooting
- ▲ Up to 25,000 hours of runtime on a single CR2032 battery
- ▲ Massive 35mm wide lens for superior field of view and fast target transition

ROME03™

1x25MM
SOR31002

- ▲ Designed for MSR rifles, shotguns, carbines, submachine guns, and full-size handguns
- ▲ Proprietary red-notch coating ensures bright red dot
- ▲ Manual illumination controls
- ▲ Comes with low profile and absolute co-witness M1913 mounts

MIL-SPEC RED DOT SIGHT

With its wide field of view and forgiving eye-box, the battle hardened ROME08T is ideal for rapid target engagement in any environment..

1X38mm

SHARED FEATURES

- ▲ High performance coatings for excellent light transmittance and red dot contrast in all situations
- ▲ Unlimited eye relief to acquire aiming point and target, regardless of eye position behind sight
- ▲ MOTAC™ (Motion Activated Illumination Systems) powers up when it senses motion and powers down when it does not
- ▲ Ultra-dependable waterproof and fog-proof performance
- ▲ Quad Ballistic Circle Dot reticle with ballistic holds and 10 Daytime and NV Settings
- ▲ 1.53" optical center height for optical device compatibility
- ▲ 38mm rectangular viewing window for unmatched situational awareness and target identification
- ▲ .5MOA adjustments for zeroing, with ballistic drops built into the reticle for distance shooting without dialing
- ▲ CR123A battery provides 100,000 hours at high-brightness setting
- ▲ 1/2" hex bolt at 85 in/lb provides retention of zero during extreme conditions
- ▲ Assembled in the U.S.A.

HIGH-PERFORMANCE LENS COATINGS

REMOVABLE TITANIUM SHROUD

FLIP CAPS AND ANTI REFLECTIVE DEVICE INCLUDED

ROME04T OPTIC HAS BEEN SELECTED BY:

- The U.S. ARMY Special Operations
- Federal Bureau of Investigations (FBI)
- Department of Homeland Security, Customs and Border Protection (CBP)
- The U.S. Federal Government Bureau of Prisons

COMPACT RED DOT / GREEN DOT SIGHTS

Chosen by elite government and military agencies, the ROME04 is the ultimate Red Dot sight when fast, accurate target acquisition is a must, regardless of lighting conditions, weather conditions, or terrain. Whether it's a moving target, dangerous game at full charge, or a fast-breaking tactical situation at close quarters, the rugged ROME04 Red Dot sight can handle the job. Battery and solar powered options available.

1X20mm

SHARED FEATURES

- ▲ Unlimited eye-relief to acquire aiming point and target, regardless of eye position behind sight
- ▲ MOTACT™ (Motion Activated Illumination) powers up when sensing motion
- ▲ Utilizes an ultra efficient red LED illumination for daylight visibility and extended runtime
- ▲ Provides 12 illumination settings (10 daylight plus 2 NV) for visibility in all light conditions
- ▲ Strong and lightweight aircraft grade CNC aluminum housing (7075 grade on ROME04T)
- ▲ Absolute co-witness QR mount and low mount included (absolute co-witness 1/2" hex nut on ROME04T)
- ▲ Users can select from 4 different onboard reticle options, per model (dot, circledot, dot with holds, circledot with holds)
- ▲ Runtime In excess of 100,000 hours with solar and battery usage (ROME04T, ROME04DR, ROME04S)
- ▲ Comes standard with lens caps and mount
- ▲ Waterproof (IPX-8 rated) and fog-proof (ROME04T)
- ▲ Assembled in the U.S.A.

1x20MM
SOR43011 / SOR43012 / SOR43013

- ▲ Comes standard with lens caps and quick-release mount
- ▲ 50,000+ hour battery life and the readily available CR2032 battery is side-loading for quick battery replacement

RED DOT SIGHT

The ROME07 line of red dot sights provide the civilian and armed professional with an intuitive 1x aiming solution optimized for today's MSR platforms, regardless of caliber.

1X30mm

FEATURES

- ▲ High performance lens coatings for excellent light transmission and dot contrast in any situation
- ▲ Easy-access rotary dial for complete control
- ▲ 2 MOA red dot is optimal for close quarters battle to mid-range engagement
- ▲ Side-loading for quick battery change
- ▲ Dependable IPX-7 waterproof and fogproof performance
- ▲ MOTAC™ powers up when it senses motion and powers down when it does not
- ▲ Compact size and weight with unlimited eye-relief and parallax free operation
- ▲ Aircraft grade aluminum housing and mount
- ▲ Includes slip over, see-through flip-backs

ROME07S™ COMPACT RED DOT SIGHT

1X22MM
SOR75001 / SOR75002

- ▲ Durable half-inch hex nut mount

SIDE-LOADING FOR QUICK BATTERY CHANGE

AIRCRAFT GRADE ALUMINUM HOUSING AND MOUNT

INCLUDES SLIP OVER, SEE THROUGH FLIP-BACKS

2 MOA Green Dot

2 MOA Red Dot

ROME07™ FULL-SIZE RED DOT SIGHT

1X30MM
SOR71001

- ▲ Powered by AAA battery for up to 62,500 hour run time
- ▲ IPX-7 rated for complete immersion up to 1 meter

ROME05™

COMPACT RED DOT / GREEN DOT SIGHTS

The ROME05 Red Dot Sight mounts on any platform, and even though it's small, it's tough. The solid, lightweight aluminum design will give peak performance and years of service.

1X20mm

SHARED FEATURES

- ▲ Ultra-low parallax so point-of-aim is point-of-impact and the red dot remains parallel to the bore of your firearm, no matter what your viewing angle is relative to the optical axis of the sight
- ▲ Unlimited eye relief to acquire aiming point and target, regardless of eye position behind sight
- ▲ MOTAC™ (Motion Activated Illumination) powers up or down when sensing motion
- ▲ Ultra-dependable waterproof (IPX-7 rated for complete water immersion up to 1 meter) and fog-proof performance
- ▲ Runs on a single AAA battery for up to 50,000 hours of runtime under normal use
- ▲ Dual reticle (5XDR) quad reticle (Predator)

Available in FDE (5XDR only)

ROME05XDR™ COMPACT RED/GREEN DOT SIGHT

1X20MM
SOR52122 (PREDATOR) / SOR52102 (XDR) / SOR521XXXX (FDE)

- ▲ 2 MOA red dot with 65 MOA circle provides 10 illumination settings (8 daylight plus 2 NV) for visibility in all light conditions
- ▲ Modular M1913 picatinny riser mount for 1.41" (absolute co-witness) or 1.63" (1/3 Lower co-witness) sight heights
- ▲ Dependable waterproof (IPX-7 rated for complete water immersion up to 1 meter) and fog-proof performance
- ▲ Green predator reticle model available with 4 green reticles (dot, dot with triangle, dot with lower triangle, and triangle only)

MAGNIERS

Easily transition between close quarters and medium range targets with a flip of our JULIET magnifier. When used in conjunction with a Red Dot, the JULIET features a quick-release PowerCam mount which flips easily to one side when not in use. Built-in recoil lugs ensure zero-hold even after removing and reinstalling.

6x24mm

SHARED FEATURES

- ▲ Quick release mount with built-in recoil lugs for a repeatable zero
- ▲ PowerCam™ 90° mount pivots to the side when not needed
- ▲ Adjustable height using included spacers
- ▲ Aerospace grade 6061 aluminum housing ensures a lifetime of reliable service
- ▲ Waterproof rated IPX-8 (20 meters for 1 hour)
- ▲ Dialectic coated prism
- ▲ Compact size and weight
- ▲ Assembled in the U.S.A.

JULIET 6™ MAGNIER

6X24MM
SOJ61001

- ▲ Designed for MSR platforms and shotguns

JULIET 3™ AND ROMEO 5™ COMBO KIT (SORJ5310)

ALL SPECIFICATIONS SUBJECT TO CHANGE

MICRO MAGNIFIERS / COMBO KIT

New for this year is the JULIET3-MICRO™ Magnifier. This ultra-compact and lightweight magnifier features an aircraft grade CNC aluminum housing and dependable IPX-7 waterproof and fog proof performance. With its high-performance Dielectric coated prism, the JULIET3-MICRO Magnifier provides excellent light transmission. Also new is the ROMEO-MSR™ Combo Kit, combining the ROMEO MSR compact red dot with the JULIET3-MICRO Magnifier.

The ROMEO MSR is a sealed compact red dot sight with 20,000+ hour battery life, high-performance lens coatings for excellent light transmission. The ROMEO MSR and JULIET3-MICRO have a 1.41 sight height for absolute co-witness.

3x22mm

SHARED FEATURES

- ▲ High performance lens coatings including dielectric-coated prism for excellent light transmission
- ▲ Ultra-compact size and weight
- ▲ Dependable IPX-7 waterproof and fogproof performance
- ▲ 90° push-button flip-to-side magnifier mount

JULIET3-MICRO MAGNIFIER / ROMEO-MSR™ COMBO KIT

3x22MM / 1x20MM
SORJ72001

- ▲ Ultra-compact size and weight
- ▲ Aircraft grade CNC aluminum housing ensures lifetime of reliable service
- ▲ Precise 2 MOA dot
- ▲ Lens covers included
- ▲ 1.41 Sight height for absolute co-witness
- ▲ Top-loading, rotary illumination brightness control featuring 10 daytime and 2 NV settings

THERMAL REFLEX SIGHT

The most innovative, direct view thermal sight in the world. The ECHO3 uses SIG SAUER® BDX® technology and can record both video and images in 8 different color palettes.

1-6x23mm 2-12x40mm

FEATURES

- ▲ Compact thermal reflex style sight (don't get stuck "behind" a scope)
- ▲ BDX enabled WiFi/Bluetooth®, allowing active reticles that change with KILO® rangefinder input, and customizable fixed reticles that are configured from the BDX mobile application
- ▲ Uncooled 320x240 12um VOx LWIR core operating at 30Hz
- ▲ LEVELPLEX® Anti-Cant System with scope cant sensitivity down to 0.5°
- ▲ MOTACT™ (Motion Activated Display) powers up when it senses motion
- ▲ Video and image recording (including recoil activation) with 8 color palettes
- ▲ Greater than 6 hours of run time with heavy use
- ▲ Easy to adjust lens with optional throw lever attachment
- ▲ Quick disconnect mount
- ▲ Designed and assembled in the U.S.A. to withstand IPX-4 conditions

BATTLESIGHTS

The BRAVO battlesights combine crystal-clear fixed-power optics, intuitive reticles, super-bright illumination, and a rugged aluminum housing into one attractive package. Featuring 5.56/.308 and .300 Blackout reticles, this family will enhance any MSR/AR platform.

3x24mm

SHARED FEATURES

- ▲ Easily adjust illumination with side-mounted rotary dial featuring 8-daytime and 3 NV settings
- ▲ MOTACT™ (Motion Activated Illumination) powers up when it senses motion and powers down when it does not
- ▲ Lensarmor™: Abrasion-resistant lens coatings to withstand the harshest of conditions
- ▲ MEGAVIEW advanced prism and ocular design yields 40% greater field of view than the competitive prism-based battle sights
- ▲ Low dispersion (LD) glass provides industry leading optical clarity
- ▲ Adjustable eyepiece with +/- 2 diopter correction
- ▲ Integrated picatinny rails for accessories
- ▲ IPX-7 rated for complete immersion of up to 1 meter

BRAVO3™ BATTLESIGHT

3X24MM
SOB33101 / SOB33102

- ▲ Designed for professionals and civilian MSR/AR shooters
- ▲ 40% wider field of view than current battlesights
- ▲ Distortion-free Image, edge-to-edge clarity

MEGAVIEW ADVANCED PRISM AND OCULAR DESIGN

ADJUSTABLE EYEPIECE WITH +/- 2 DIOPTRER CORRECTION

INTEGRATED PICATINNY RAILS FOR ACCESSORIES

5.56MM / 7.62MM
Horseshoe Dot

300 Blackout
Horseshoe Dot

BRAVO5™ BATTLESIGHT

5X30MM
SOB53101 / SOB53102

- ▲ Designed for traditional / dangerous game hunting and MSR/AR platforms
- ▲ Short, medium, and long range engagements and recreational shooting across a wide range of calibers and light conditions

MEGAVIEW™

Massive 10° Field of View, 40% Wider Than Standard 6° Sights. That's 53 Feet of View at 100 Yards vs. 37 Feet

BRAVO4™ BATTLE PACK

Introducing the BRAVO4 Battle Pack; The ultimate tactical solution. This Battle Pack combines a 4x32mm Prismatic Battle Sight with a shroud-equipped 1x24mm ROME0Zero™ reflex sight. Featuring MEGAVIEW™, the BRAVO4 provides a forty percent increase in field of view and eye relief with distortion free image and edge to edge clarity. Extended range hits are made fast with the illuminated 5.56/7.62 ballistic reticle. The top mounted ROME0Zero Reflex Sight features a ruggedized, WeaponsGrade™ textured polymer body and the SpectraCoat™ HD Polymer lens allowing quick transition to CQB when needed.

3x24mm

FEATURES

- ▲ MOTAC™ (Motion Activated Illumination) powers up when it senses motion and powers down when it does not
- ▲ SpectraCoat™ HD polymer lens with 10 times the impact resistance over traditional glass lenses (ROME0Zero)
- ▲ MEGAVIEW advanced prism and ocular design yields 40% greater field of view than the competitive prism-based battle sights (BRAVO4)
- ▲ Low dispersion (LD) glass provides industry leading optical clarity (BRAVO4)
- ▲ Adjustable eyepiece with +/- 2 diopter correction
- ▲ Integrated picatinny rails for accessories
- ▲ IPX-8 rated for complete immersion of up to 1 meter (BRAVO4)
- ▲ IPX-67 rated for complete immersion of up to 1 meter (ROME0Zero)

SPECTRACOAT™ HD POLYMER LENS (ROME0ZERO)

BINOCULARS

Next to a zeroed rifle, a clear and bright pair of binoculars is the best piece of gear to have on hand. ZULU binoculars perform in the harshest conditions, giving unmatched performance in inclement weather or rugged terrain.

- 16X42mm
- 10X30mm
- 10X42mm
- 11X45mm
- 15X56mm

FEATURES

- ▲ Combines superior optical performance with in-the-field utility
- ▲ High-quality glass, fully multi-coated Spectracoat™ lenses
- ▲ Phase-coated prisms provide maximum brightness, contrast, and crisp resolution
- ▲ Performs in the harshest conditions, giving unmatched performance in inclement weather or rugged terrain
- ▲ Superior low-light performance

- 

FULLY MULTI-COATED SPECTRACOAT™ LENSES
- 

DURABLE RUBBER ARMOR NON-SLIP GRIP DESIGN
- 

MULTI-POSITION TWIST-UP EYECUPS

10X30MM
SOZ61001

ZULU6™ IMAGE STABILIZED BINOCULAR

- 16X42
SOZ61601
- ▲ Optical image stabilization, prism is electronically stabilized by a 2 axis gimbal
 - ▲ Compensates for human motion input into optics allowing for handheld use of high magnification optics, eliminates shake due to buffeting winds, heavy breathing after a long hike, cold-induced shivering, washboard ranch roads, chop on water, etc.
 - ▲ MOTAC™ conserves battery life by turning unit off after 5 minutes of no motion

ZULU9™ HDX® ABBE-KOENIG PRISM
11x45 / 15x56
SOZ99002 / SOZ99003

- ▲ Combines superior optical performance with in-the-field utility
- ▲ High-quality glass, fully multi-coated Spectracoat™ lenses
- ▲ Phase-coated Abbe-Koenig prisms provide maximum brightness, contrast and crisp resolution

ZULU7™ HDX OPEN-BRIDGE
10X42MM
SOZ71001

- ▲ Multi-position twist-up eyecups provide a custom fit for each user
- ▲ Fully multi-coated roof prism binocular incorporates super high reflectance phase-coated BAK4 prisms for unmatched resolution and image contrast
- ▲ Field & Stream Best of the Best Winner 2016

ZULU5™ HD OPEN-BRIDGE
10X42MM
SOZ52101

- ▲ HD glass for superior clarity and color correctness
- ▲ Silver deposition phase-coated BAK4 prisms
- ▲ Lightweight and durable magnesium alloy body

SPOTTING SCOPES

The OSCAR family of spotting scopes delivers unmatched image clarity and performance when it matters most. The OSCAR3 mini-spotting scope puts a powerful optic in the palm of your hand, and features the advanced Optical Image Stabilization (OIS) technology, for improved image quality at the highest magnification, to make spotting your target faster and easier. Ideal for backpacking, hunting, wildlife and sports observation, along with law enforcement and military reconnaissance. The new OSCAR8 angled eyepiece spotting scope is the newest addition to the OSCAR family of spotting scopes from SIG SAUER®. Featuring the industry-leading HDX® optical design, extra-low dispersion glass with high light transmittance glass, and full multi-coated lenses to deliver unmatched resolution, image contrast, and color clarity. When spotting in the field for long periods, the ergonomic design and durable rubber armor of the OSCAR8 delivers unmatched results in all conditions.

27-55X80mm

FEATURES

- ▲ HDX advanced optical system comprising both high Definition (ED) and high transmittance (HT) glass for ultra-high resolution, optical performance, and light transmission
- ▲ SCHMIDT-PECHAN prism, combined with HD glass, provide unmatched chromatic and spherical aberration correction for clear, vibrant images
- ▲ Spectracoat™ highly efficient, ultra-wide broadband, anti-reflection lens coatings reduce surface reflections to extremely low levels across the entire visible spectrum providing superior light transmission
- ▲ Angled eyepiece, combined with rotating tripod collar, provides the user with multiple viewing angles, to accommodate setup and usage in any terrain
- ▲ Comes equipped with a variable power eyepiece. This eyepiece can be locked into place or removed so that the OSCAR8 can accept other variable or fixed power eyepieces.

SPECTRACOAT™ ANTI-REFLECTION LENS COATINGS

ANGLED EYEPIECE AND ROTATING TRIPOD COLLAR

VARIABLE POWER EYEPIECE

OSCAR8™

27-55X80MM
SO082001

- ▲ Waterproof and fog proof, the OSCAR8 will provide unmatched performance in all environmental conditions
- ▲ Adjustable eyecups allow the user to optimize eye relief for use with or without glasses
- ▲ Lightweight and robust aircraft grade aluminum housing, combined with rubberized non-slip grip armor, ensures a lifetime of use in the worst conditions
- ▲ Custom SIG SAUER® fitted neoprene cover included
- ▲ Assembled in U.S.A.

Advanced optical systems comprising both High Definition (ED) and High Transmittance (HT) glass for ultra-high resolution, optical performance and light transmission.

OSCAR3™

10-20X30MM
SOV31001

- ▲ Advanced electronic image stabilization technology that fits in the palm of a hand
- ▲ OIS Optical image stabilization removes human motion and jitter for improved image quality and target identification under high magnification
- ▲ Ideal for backpacking, hunting, wildlife and sports observation, law enforcement, and military reconnaissance
- ▲ The small size and capability of the OSCAR3 is ideal for backpacking, spot/stalk and tree stand archery, or long range rifle hunting in open country or mountains as well as concealed viewing situations for LE or military use

STABILIZED

UNSTABILIZED

LIMA[®]

LASER SIGHTS

The most advanced red or green lasers on the market, the proprietary LIMA laser grip module and low-profile LIMA laser integrate seamlessly with your SIG SAUER[®] pistol.

STANDARD FEATURES

- ▲ Latest generation 5 MW red or green lasers for unmatched runtime
- ▲ Ambidextrous laser activation supports all grip types
- ▲ Windage and elevation adjustments
- ▲ Powered by lithium 1/3N battery
- ▲ Instant activation tact switch
- ▲ Assembled in U.S.A.

LIMA365[™]
PISTOL LASER
SOL36501 (RED) / SOL36502 (GREEN)

- ▲ Ideal for target shooting, conceal carry, and personal defense
- ▲ Designed to perfectly fuse against the SIG P365[®] trigger guard for seamless fit
- ▲ Powered by lithium 1/3N battery
- ▲ Instant-activation tactile switch
- ▲ Shown with P365[®] pistol, (not included)

Assembled in the U.S.A.

LIMA320[™]
LASER GRIP
SOL51001 (RED) / SOL51002 (GREEN)

- ▲ Integrates and fits perfectly with our P320[®] and P250[®] pistol platforms
- ▲ State-of-the-art laser targeting in a package that is stealth and virtually invisible to the operator
- ▲ Same material as SIG SAUER standard polymer frames and textured to match
- ▲ Seamlessly integrates either a Red (osram) or direct green (osram) high-quality and high-efficiency laser module for extreme accuracy
- ▲ Works with carry, compact and full size
- ▲ Shown with P320 slide, magazine, and trigger group, (not included)

Assembled in the U.S.A.

LIMA1[™]
WEAPON MOUNTED LASER
SOL11001 (RED) / SOL11002 (GREEN)

- ▲ Ideal for target shooting, conceal carry, and personal defense
- ▲ Designed to fit M1913 and SIG rails
- ▲ Powered by lithium 1/3N battery
- ▲ Instant-activation left and right tactile switches
- ▲ Shown with M17[®] pistol, (not included)

FOXTROT[®]

WEAPON MOUNTED LIGHTS

The FOXTROT series of pistol lights provide bright, crisp, white light and come ready to mount on your SIG SAUER[®] pistol.

FOXTROT2[™]
WEAPON MOUNTED LIGHT
SOF21000

- ▲ 550 lumens and 1.5 hours of runtime
- ▲ Powered by 1 CR123 battery, loaded via a removable bezel with lockout mode
- ▲ M1913/SIG and Glock sliding rail interface plates included for maximum location adjustment range on the rail
- ▲ Ambidextrous rocking paddle switches, which are interchangeable with multiple sizes included
- ▲ Programmable user interface with 3 different modes including momentary, latching, and threshold, for mission specific customization

Assembled in the U.S.A.

FOXTROT1X[™]
WEAPON MOUNTED LIGHT
SOF12001

- ▲ 450 lumens and 1.5 hours of runtime
- ▲ Powered by 1 CR123 battery, loaded via a removable bezel with lockout mode
- ▲ M1913/SIG and Glock[®] sliding rail interface plates included for maximum location adjustment range on the rail
- ▲ Ambidextrous push-button side switches, with momentary and latching modes

FOXTROT1[™]
WEAPON MOUNTED LIGHT
SOF11001

- ▲ Mounts to any picatinny 1913 or SIG SAUER[®] proprietary rails
- ▲ Dual, finger-actuated tactile switches support ambidextrous use
- ▲ User-selectable output from 100 / 200 / 300 lumens
- ▲ Momentary or continuous-on with 5 minute auto-timeout
- ▲ Dependable waterproof (IPX-7 rated for complete water immersion up to 1 meter) and fog-proof performance

FOXTROT 365[™]
WEAPON MOUNTED LIGHT
SOF36501

- ▲ Up to 100 lumens and 3 hour run time
- ▲ Ideal for law enforcement, concealed carry, and personal defense
- ▲ Designed to perfectly fuse with the SIG P365[®] trigger guard for a seamless fit
- ▲ Latest generation Cree LEDs for maximum brightness and runtime
- ▲ Instant-activation tactile switch
- ▲ Powered by lithium 1/3N batteries
- ▲ Shown with P365 pistol (not included)
- ▲ Assembled in U.S.A.

Assembled in the U.S.A.

X-RAY3™

ENHANCED DAY/NIGHT SIGHTS

The X-RAY® family of pistol sights make target acquisition intuitive and fast in any lighting condition. The high contrast front sights paired with the glare reducing rear sights keep your focus on the front sight. The X-RAY3 line uses a 3-dot tritium system for the most demanding low light environments

FEATURES

- ▲ Oversized chemical-resistant fluorescent polymer front dot sight gives confidence in any environment
- ▲ Torture tested to 20,000 rounds, the steel housing provides a tough, reliable sight that lasts as long as the firearm
- ▲ Rear sights come in standard SIG SAUER® sizes of #6 and #8
- ▲ Fits SIG SAUER P238®, P938®, P250®, P320® and classic line models

X-RAY3™ ENHANCED DAY/NIGHT SIGHTS

PISTOL SIGHTS
SOX10001 (SQUARE) / SOX10002 (ROUND U) / SOX10003 (SQUARE) / SOX10004 (ROUND U)

SOX10005 (SQUARE) / SOX10006 (ROUND U) / SOX10007 (SQUARE) / SOX10008 (ROUND U) / SOX10009 (SUPPRESSOR HEIGHT)

- ▲ With a half-life of 12 years, the 3-Dot tritium system allows for fast target acquisition in low-light conditions
- ▲ Oversized chemical resistant fluorescent polymer front dot provides confidence in all environments
- ▲ X-RAY3 come in SIG SAUER sizes of #6 and #8, Square or Round (U) notched rear sight

ALPHA™

RIFLESCOPE MOUNTS/RINGS

Our hard-black-anodized, precision-machined, ALPHA Tactical Rings are crafted from aircraft-grade aluminum. Built with the same unique industrial design as our electro-optics, our rings and mounts not only look tough, they are tough. Our proprietary steel-alloy ALPHA Hunting Rings are machined with an exactness that is both strong and ductile, which allows our rings to form around a riflescope, and will not cause damage with proper installation. The steel rings are epoxy powder coated to prevent oxidation and resist gun oils, cleaning solutions, and outdoor exposure.

ALPHA3™ SCOPE MOUNT

WEAPON MOUNTED LIGHT
SOA30001 | 30MM 0 CANT

- ▲ Available heights ranging From 0.75" - 1.25"
- ▲ Available weights ranging from 1.3oz - 6.7oz

SUPPRESSORS

PISTOL SUPPRESSOR

WELCOME TO THE FUTURE OF SILENCE.

SIG SAUER engineers have developed the next generation of pistol suppressors. With decades of product design and R&D experience under our belts, suppressors are not treated as bolt-on accessories. At SIG SAUER, it is understood that suppressors interact with your firearm's system and can affect accuracy, reliability, back-pressure, and other critical factors. We design our suppressors to be part of a completely integrated system to maximize overall performance, and as a result we build the most advanced, most dependable suppressors the world has ever seen, or heard.

The pistol suppressor line from SIG SAUER features completely modular and configurable titanium baffles for the ultimate in lightweight performance that allows the user to personalize their suppressor for overall length, weight, and sound. The MODX-9™ and MODX-45™ provide class-leading sound performance and can be easily disassembled and reconfigured with fewer baffles when your priority is size over sound. The MODX™ suppressors feature 21 points of impact adjustment and come with a fixed-barrel spacer for carbine use. Each MODX suppressor includes the most popular inch and metric piston for its given caliber.

9mm 45AUTO

SHARED FEATURES

- ▲ Segmented titanium 3D-printed
- ▲ Titanium baffles
- ▲ Shooter can adjust the number of baffles to shape the overall length when size is more important than sound performance
- ▲ Includes two pistons (1/2"x28tpi & M13.5x1LH) and fixed-barrel spacer (MODX-9)
- ▲ .578X28 and M16X1LH (MODX-45)
- ▲ Multi-Caliber capable with accessory pistons (MODX-45)

MODX-9™
9mm
MODX-9

MODX-45™
45AUTO
MODX-45

All dB measurements taken in a controlled environment with sound levels measured at (1M left of muzzle, Shooter left ear, Shooter right ear). Actual results may vary with shooting environment, weapons platform, and ammunition selection.

RIFLE SUPPRESSOR

SLX™ RIFLE SUPPRESSORS

The next generation of suppressor technology has arrived. The SLX series of rifle suppressors from SIG SAUER were born out of today's modern military requirements and are designed to deliver cutting-edge performance. The new Clutch-LOK™ QD mounting system is easy to use, repeatable, and extremely durable. The cross-flow baffle design delivers an entirely new shooting experience, focusing on the reduction of harmful toxic gases to the user which allows gases to expand and cool at a faster rate than a traditional design, while minimizing an increase in bolt speed.

The SLX series is ideal for users that have a focus on reduction of flash, toxic gas, and cyclic rate increases.

5.56NATO

SHARED FEATURES

- ▲ Caliber imprinted on device
- ▲ Muzzle device included 1/2"x28tpi (QD suppressors)

SLX 556-QD

RIFLE SUPPRESSOR

SLH™ RIFLE SUPPRESSORS

The next generation of suppressor technology has arrived. The SLH series of rifle suppressors from SIG SAUER were born out of today's modern military requirements and are designed to deliver cutting-edge performance. The new Clutch-LOK™ QD mounting system is easy to use, repeatable, and extremely durable. The cross-flow, hybrid-baffle design delivers an entirely new shooting experience, focusing on a combination of best in class sound reduction and less harmful toxic gases than traditional suppressor designs.

The SLH series of rifle suppressor gives many of the benefits of the SLX series, with a primary focus on sound signature. The SLH series is ideal for low pressure rounds or when sound signature reduction is the number one priority.

RIMFIRE SUPPRESSOR

MORE ROUNDS. LESS NOISE

SIG engineers are using cutting-edge innovation to establish a new standard in accuracy and durability for .22LR suppressors.

The SRD22X 22LR can be used on both pistols and rifles and features a Grade 9 Titanium outer tube with 17-4 stainless steel baffles. Due to the durability of its materials, the SRD22X can be used with .22LR pistols and rifles chambered in .17HMR/.17 Mach II and .22 Magnum. The SRD22X ships with a 1/2x 28tpi mount, with an additional M9.75 mount available for purchase in the near future, and is fully user-serviceable.

SIG AIR®

SIG AIR BY SIG SAUER®

From the most elite name in firearms comes the most innovative line of airguns and airsoft guns which combines the unmatched reliability, performance, and exacting standards of SIG SAUER.

The SIG AIR product line includes a series of traditional CO² pellet and BB rifles and pistols designed to imitate the look, weight, balance, and handling characteristics of their traditional firearms counterparts. SIG AIR has also developed a precision line of break barrel, pre-charged pneumatic (PCP), and single-stroke pneumatic rifles and pistols, all meeting the high standards of SIG SAUER firearms.

SIG AIR has expanded to training products with the PROFORCE® line of airsoft pistols, rifles, and accessories. Designed and developed from the ground up to deliver a realistic training experience, that allows the user access to achieve a new level of unrealized performance potential. The SIG AIR PROFORCE series of pistols and rifles allows for flexibility in your training environment and is an economical alternative to training with firearms.

Consistency was the focus when developing the SIG AIR PROFORCE line. Each PROFORCE model closely matches its real steel complement in model specifications and delivers an authentic user experience. The PROFORCE line is also engineered to SIG quality standards using authentic materials and, where necessary, patented performance innovations.

Perfected for muscle memory exercises, shooting drills, and tactical training, these airsoft and airgun models are the economic and authentic answer to training more often, more effectively, and more affordably.

The full line of SIG AIR products delivers a completely authentic SIG handling experience, with the firepower you can rely on, for all of your hunting, sporting, and practical training needs.

Shoots like a SIG, because it is one.

SIG AIR **DESIGNED TO MATCH THE ORIGINALS**

- 1 | **All Metal or Polymer Construction**
Some models a combination of both
- 2 | **Front and Rear Flip-up Sights**
On some rifle models
- 3 | **Red Dot or Scopes**
Included on some models
- 4 | **Realistic Controls**
Controls match our rifles and pistols
- 5 | **Removable or Adjustable Stock**
On some models
- 6 | **Picatinny Rail**
Mount your favorite accessories
- 7 | **Safety Orange Tip**
On PROFORCE models
- 8 | **Realistic Trigger**
Smooth action similar to originals
- 9 | **Reload Mags Just Like Originals**
Drop magazines using similar releases
- 10 | **Full Blowback Slide**
Slide cycles back and forth
- 11 | **Weight Similar to Original**
Great as a training tool

PROFORCE[®] MCX

AUTOMATIC ELECTRIC GUN (AEG)

Modeled after its real steel counterpart, the PROFORCE release of the SIG SAUER MCX Virtus™ Airsoft AEG (Automatic Electric Gun) Rifle does not disappoint. With a full CNC machined receiver, integrated M-LOK® handguard, 3-position telescoping stock, open full-length Picatinny rail for the addition of sights, and a modular locking accessory mounting system, the MCX Virtus is a polymer airsoft BB slinging brute with 120 round mid-cap magazine that keeps you active and engaged on the firing line.

6mm AIRSOFT BB

FEATURES

- ▲ 120rd BB magazine
- ▲ Quick change tuning springs (110mm & 120mm included)
- ▲ 11.1v LiPo battery (not included)
- ▲ Sight ready platform
- ▲ Orange safety tip
- ▲ Attach your favorite accessories
- ▲ Familiar AR controls
- ▲ Velocity up to 375 FPS*

MCX VIRTUS™

3-POSITION TELESCOPING STOCK

120 ROUND BB MAGAZINE

ALL METAL RECEIVER AND M-LOK HANDGUARD CONSTRUCTION FOR ACCURATE WEIGHT AND HANDLING

PROFORCE VIRTUS MCX

- ▲ All metal CNC machined receiver and handguard
- ▲ M-LOK® handguard and Picatinny rail
- ▲ Safe, semi, and full auto firing modes
- ▲ 3-position telescoping stock

*Please Note

- ▲ Velocity obtained with 0.20g BBs
- ▲ For best results use 11.1V LIPO battery and appropriate charger.
- ▲ 11.1V LIPO battery is the maximum battery compatible with this rifle.
- ▲ Batteries and chargers sold separately. Please visit your local or online AirSoft retailer for accessories, batteries and chargers.

MCX VIRTUS PCP

SEMI-AUTOMATIC PRE-CHARGED PNEUMATIC RIFLE

The MCX VIRTUS PCP rifle is the latest expansion to the SIG AIR® precision line of airguns, and the introduction of SIG AIR products to the pre-charged pneumatic (PCP) category of airguns. The MCX VIRTUS PCP doubles the muzzle energy of classic CO2 models and uses the SIG Rapid Pellet Magazine, making it ideal for target training and varmint hunting.

.22CAL PELLETS

FEATURES

- ▲ 17.5" barrel
- ▲ 12FP muzzle energy
- ▲ Flip-up front and rear sights
- ▲ Picatinny top rail for mounting optics
- ▲ Clip-on stock with sling attachment points
- ▲ M-LOK® rail for mounting accessories
- ▲ Familiar AR controls

*Please Note

- ▲ Pellets are sold separately.
- ▲ Results may vary based on ammo weight, temperature, and altitude.

MCX VIRTUS™

BREAK BARREL AIR RIFLES

Introducing the most advanced break barrel system in the marketplace, engineered and produced by SIG SAUER® in New Hampshire. The common misconception among many is, "high muzzle velocity that makes for a better air rifle". In actuality, foot-pound muzzle energy is a more accurate gauge of the power of air rifles than the speed at which a projectile comes out of the barrel. Down-range accuracy and retained energy are better with a heavier projectile leaving the barrel at subsonic speed rather than an impractically lightweight projectile leaving the barrel at a supersonic speed of 1400+ feet per second. This .177CAL suppressed single-shot, Advanced Sport Pellet (ASP) air rifle delivers down-range power and accuracy, with the lightest cocking effort in its class, making it ideal for hunting small to medium game.

.177CAL PELLETT **.22CAL PELLETT**

SHARED FEATURES

- ▲ Smooth and consistent 2-Stage MATCHLITE™ trigger
- ▲ GLIDELITE® cocking mechanism ensures lightest cocking effort in this power level
- ▲ Proprietary drill-pinned breech wedge lock system for enhanced accuracy
- ▲ Single shot pellet rifle
- ▲ Built in U.S.A.

2-STAGE MATCHLITE TRIGGER

SIG AIR® ACCESSORIES

ENGINEERED TO A NEW STANDARD OF PERFORMANCE

REFLEX SIGHT

Designed for fast, responsive target acquisition with the M17™ / M18™ PROFORCE® and M17 pellet pistol with a 23mm field of view. Mounting plates included to quickly and easily upgrade your SIG AIR pistol.

SIG AIR reflex sight

HAND PUMP

The SIG AIR High-Pressure Hand Pump provides an affordable, reliable, and inexpensive method for filling your PCP airguns. For use with the 13 cu. in. tank on the SIG VIRTUS PCP rifle, but made to work with any brand of PCP gun with a male Foster quick-disconnect fitting. The 3-stage pump goes up to 4500 psi and includes an integral air pressure gauge.

PELLETS

PRECISION MEETS PERFORMANCE

SIG AIR® lead pellets offer a variety of shapes for all uses and differing levels of shooters. Options for shooting paper targets, or metal field targets and silhouettes, SIG AIR pellets will fit the needs and performance required for every shooter.

AIR CYLINDERS

PREMIUM AIRGUN PERFORMANCE

Available high quality, CO₂ cylinders and PCP air tank provide solid platforms for consistency and reliability. The use of SIG premium air cylinders for your SIG AIR products will ensure long lasting SIG performance.

90g CO₂ cylinder

12g CO₂ cylinder

Regulated 13ci high-pressure air cylinder

MAGAZINES

ELEVATE YOUR FIREPOWER

Utilizing a variety of different style magazines with innovative features, such as cam lever loading and the patented Rapid Pellet Magazine (RPM), SIG AIR magazines are engineered to elevate performance and firepower in all of your SIG AIR products.

30-round RPM™ magazine (Rapid Pellet Magazine)

P365 steel BB magazine

M17 20 round RPM magazine

SHOOTING TARGETS

Whether you are training in your garage, basement, or back yard, there is a SIG AIR Target to suit your training needs.

SIG SAUER ACADEMY

SIG SAUER ACADEMY

TRAIN WITH THE PROFESSIONALS

WE'LL MAKE YOU A BETTER SHOOTER. GUARANTEED.

With a team of world class instructors, from a broad range of backgrounds, the SIG SAUER Academy provides the finest firearms and tactics training available today. Using our objective and performance-based training methods, we can help develop and expand the abilities of virtually any level of firearms user.

Our expert staff of instructors has the unique ability and experience allowing them to train all types of firearms users, from civilians to law enforcement agencies, including elite military.

The SIG SAUER Academy is committed to delivering the best, most realistic, fundamentally sound training experience possible. We'll make you a better shooter. Guaranteed.

FOR COURSE DESCRIPTIONS,
SCHEDULES, AND MORE, VISIT
SIGSAUERACADEMY.COM

FACILITIES

The SIG SAUER AcademySM offers 140 acres of state-of-the-art indoor and outdoor training facilities. We have developed a variety of ranges and infrastructure allowing us to create almost any type of environment and to prepare for practically any situation. Facilities include:

- 26 Different Live Fire Ranges
- 1,000 Yard Rifle Range
- 2 Live Fire Shoot houses
- Indoor Pistol and Rifle Ranges
- 270 Degree Range
- Tactical Training with Breaching Capabilities
- Obstacle Course
- Vehicle Defense Range

Additionally, the SIG SAUER Academy is home to the factory-direct SIG SAUER Pro Shop, displaying the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, airguns, accessories, and apparel.

PRIVATE AND MOBILE TRAINING

The SIG SAUER Academy is dedicated to providing the highest level of training available, tailored to fit any individual or organized group. We provide customized, private classes at our Academy, or we can take our expert training to a private location upon request.

Private classes for corporate and executive clients, government agencies and private groups, as well as for individuals, are available either as a standard course listed on our website or as a custom class designed to your specific needs. Private instruction ranges from foundational shooting tutorials to advanced dynamic tactics in a one-on-one or group learning environment.

INTERNATIONAL CUSTOMERS

The SIG SAUER Academy has a diverse staff of expert, bilingual instructors who provide the highest level of training and instruction to international civilian and military/law enforcement customers.

SIG SAUER Academy staff has consistently trained with some of the world's most elite counterterrorism units, providing expert instruction across a wide range of training needs. Our staff and facilities can provide any level of instruction needed to international clients, and can provide all of the necessary equipment and materials, including all tactical equipment and firearms, no matter what manufacturer or platform is required.

ABOUT OUR COURSES

PISTOL/RIFLE/SHOTGUN/PRECISION SCOPED RIFLE

The SIG SAUER Academy has programs that are designed to achieve results across a broad range of platforms, from pistols and rifles, to shotguns and precision long-range shooting. All courses are taught from a foundational level and have a progression structure allowing students to develop their skills at their own pace. Depending on your personal training objectives, we offer classes for personal and home defense, individual skill building, and instructor certification.

ADVANCED TRAINING

Advanced training courses are designed to take a student's skills to an extremely high level. These classes help provide students the knowledge, skills, and confidence to improve their performance and decision-making in a high-risk, high-stress environment. These courses include specific subjects such as low light pistol and rifle, advanced medical training, executive protection, as well as vehicle and scenario-based training.

ARMORER

SIG SAUER is one of the many major manufacturers which offers civilian armorer's courses. Our armorer's certification gives students a complete and thorough understanding of SIG SAUER firearms, including proper maintenance techniques, and inspection processes. These courses are designed to provide all of the necessary information to preserve the firearms factory warranty. Students who successfully complete these courses receive a three-year armorer certification.

LAW ENFORCEMENT/MILITARY

SIG SAUER Academy is dedicated to providing the highest level of global training for military and law enforcement professionals. Courses include specific subjects such as bus and vehicle assault, night vision, breaching, and direct threat care. Any course can be conducted remotely or customized to meet agency or department needs. Custom course design and implementation allow for any desired capability and duration of training. The SIG SAUER Academy also has physical fitness facilities available to visiting groups at no charge.

LEARN MORE AT SIGSAUERACADEMY.COM

SIG SAUER ACADEMY

MORE THAN TRAINING. A DESTINATION.

SIG SAUER ACADEMYSM is located in the Seacoast region of New Hampshire, just an hour north of Boston, and an hour south of Portland, Maine. New Hampshire is home to 18 miles of New England coastline and beaches, and is situated approximately an hour away from several top-rated ski resorts in the White Mountains. Nearby historic Portsmouth is a favorite tourist destination, featuring nationally-recognized restaurants and cuisine, outdoor sight-seeing activities, local boutiques, tax-free shopping, and a thriving nightlife. There are several major transportation hubs allowing easy access along with a wide variety of accommodations available nearby.

PRO SHOP

The SIG SAUER Academy Pro Shop is a full-service, factory-direct retail store open to the public, located on the grounds of the SIG SAUER Academy. The Pro Shop features the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, airguns, accessories, and apparel and also has armorer's services available on-site. The Pro Shop staff are highly trained and can provide expert advice on all the latest SIG SAUER products.

ACCOMMODATIONS

Through partnership with SIG SAUER®, we offer special rate arrangements with local hotels in Exeter, Dover, and Portsmouth NH, all within 10-30 minutes of the Academy.

TRANSPORTATION

The SIG SAUER Academy is approximately 30 minutes east of Manchester, New Hampshire Airport (MHT), and approximately an hour north of Boston International Airport (BOS) in Massachusetts. Some SIG SAUER partner hotels also offer students free shuttle access to and from the Academy.

EXETER

Boasting tree-lined streets and a wealth of historical architecture, Exeter is a quick 10 minutes from the Academy and hosts three of our preferred hotels. With ample restaurants, shopping and night life, this picturesque river town is a convenient place to stay while training at the Academy and is roughly 10 miles inland from the coast.

PORTSMOUTH

Venture into downtown Portsmouth, where you'll find a steady mix of modern and historic flair. From cobblestone-lined streets and historic buildings, to waterfront dining and local breweries, Portsmouth is not to be missed while here.

TEAM SIG

A TEAM OF THE HIGHEST CALIBER, COMMITTED TO EXCELLENCE

The mission of Team SIG is to support the development and production of the SIG SAUER® P320® pistol platform, the complete SIG SAUER rifle product line, SIG SAUER Electro-Optics, and SIG SAUER Ammunition. Team SIG works closely with the SIG SAUER engineers throughout the development and design of all SIG SAUER products to ensure every shooter enjoys the features that the Team SIG professional shooters demand.

ABOUT OUR SHOOTERS

MAX MICHEL - TEAM CAPTAIN

Max Michel, Jr. is one of the most dominant shooters in the world today and is recognized as a top-tier athlete and instructor. Max is a Guinness World Record holder and International Practical Shooting Confederation World Champion. He holds 8 World Speed Shooting Championships, 12 USPSA National Championships, 5 US Steel National Championships, is a 4-time Carry Optics National Champion, and holds more than 200 additional major championship victories. As an international competitor Max has represented the U.S.A. in the last seven IPSC World Shoots and returned home bearing gold each time and is set to compete once again in 2020 for Team U.S.A..

For Team SIG Max focuses primarily on carry optics competition, and as Team SIG Captain he serves as a mentor for Team SIG and is a premier brand ambassador for SIG SAUER®. Max is a U.S. Army Veteran.

Pistol: P320® XFIVE™
Optic: ROMEO1™ or ROMEO3MAX™
Ammo: Match Elite (9mm)

LENA MICULEK - PRO SHOOTER

Regarded as the top female 3-Gun competitor in the world, Lena dominates both 3-Gun and PCC competition. Lena entered into the competitive shooting world in 2005 with five consecutive Sportsman's Team Challenge Sub-junior and Junior Division national titles, and at 17 years old she won her first World Champion title. Since turning pro, Lena has earned more than 75 major wins including back-to-back NRA World Shoot "High Lady" titles, a "High Lady" title for carry optics, and 8 world titles. Additionally, in pistol caliber carbine (PCC) competition Lena is breaking barriers for female professional shooters. She is a two-time national female champion for PCC and was the first female to earn a top-five finish in PCC and was the first female to win Master Class for PCC.

For Team SIG Lena competes primarily in pistol caliber carbine (PCC) and 3-Gun competition.

Pistol: P320 XFIVE
Rifle: SIG MPX® PCC
Optic: ROMEO3™ and TANGO6™
Ammo: Match Elite (9mm), Match (.223), Varmint (.223)

DANIEL HORNER - PRO SHOOTER

Daniel Horner is a multi-discipline World Champion shooter having captured over 125 championship titles at the world, national, regional, and state level. His titles include: 2019 All Army Champion, 10 USPSA Multi-Gun National Championships, 4 3-Gun National Championships, 2 International Sniper Competitions, 2 IDPA National Championships, an IPSC Shotgun National Championship, an NRA World Shooting Championship, and many more. Daniel is a U.S. Army Veteran and was recruited to the Army to join the U.S. Army Marksmanship Unit (USAMU), where he became one of the most decorated shooters in team history. He served as the Coach of the USAMU Action Shooting Team, and during his service was twice selected as the Military Marksmanship Association Soldier of the Year.

For Team SIG Daniel competes primarily in 3-gun and long-range rifle competition.

Pistol: P320 XFIVE with iron sights
Rifle: SIGM400®
Optic: TANGO6™
Ammo: Match Elite (9mm), Match (.223), Varmint (.223)

PISTOL ACCESSORIES

P320® PRO-CUT SLIDES

Factory replacement PRO-CUT slide assembly for the P320 9mm.

- ▲ Optic ready with sight cover plate (ROME01PRO™ and DeltaPoint® Pro Footprint)
- ▲ XRAY3™ night sights
- ▲ Stylized relief cuts
- ▲ Available in black, coyote, and stainless finishes

P320 X-CHANGE KITS

The modular pistol has arrived. Removing P320 fire control group unlocks hundreds of combinations.

- ▲ Includes: complete slide, barrel, recoil spring assembly, grip module, and magazine
- ▲ Reflex optic compatible
- ▲ Not available for manual safety

P320 GRIP MODULES

Engineered to fit your hand and your P320.

- ▲ Full-sized, carry, compact, and sub-compact
- ▲ XFIVE; XFull, XCarry, XCompact
- ▲ Black, M17 coyote, and white
- ▲ Large, medium, and small (not available in all colors and XSERIES)
- ▲ XFIVE® grip module includes weight and magazine funnel

P320 TXG™ GRIP MODULE

The weight of steel and the flex of polymer

- ▲ Requires complete P320 fire control unit and XFIVE or full-size slide assembly
- ▲ Overall weight is 16.6oz
- ▲ Tungsten-infused polymer
- ▲ Available with extended magwell and internal weight
- ▲ Patent pending technology

Now you can purchase small parts for select SIG SAUER Firearms quickly and easily online at the SIG SAUER Webstore.

The SIG SAUER Small Parts Shopper is exclusive to sigsauer.com and intuitively navigates for upper or lower components of select SIG SAUER firearms so you can get the parts you need.

P320® AXG™ GRIP MODULE

Give your P320 a metal gun feel with the AXG Grip Module and customized grip panels/inserts.

- ▲ Alloy XSERIES grip
- ▲ Hogue G10 grip panels and inserts
- ▲ Hard anodized finish

PISTOL MAGAZINES

Original factory magazines designed specifically for SIG SAUER® pistols.

- ▲ Capacities from 6 to 21 Rounds
- ▲ .380 ACP, 9mm, .357 SIG, .40 S&W, 10mm, and .45 ACP

PISTOL BARRELS

SIG SAUER factory made pistol barrels.

- ▲ Offered in P238, P938, P210, P220, P226, P229, 1911, P320, and P365 firearms families
- ▲ Threaded and non-threaded versions

PISTOL TRIGGER UPGRADES

Introducing the next level in precision to Classic and P320 pistols.

- ▲ Made in Flat and Curved Trigger Configurations

PISTOL PART KITS

Keep your favorite firearm running like new.

- ▲ Replacement parts kits for classic, P320, and P365 models
- ▲ Factory approved parts for every need

RIFLE ACCESSORIES

SIG MCX® AR UPGRADE KIT

Transform any MIL-SPEC AR lower receiver into the adaptive and modular SIG MCX® VIRTUS.

- ▲ Complete SIG MCX Upper Receiver Assembly
- ▲ Lower receiver stock adapter
- ▲ Side-folding AR buffer tube knuckle
- ▲ Two-stage match duo trigger

SIG MCX RATTLER™ CONVERSION KIT

Convert any MIL-SPEC AR Lower into an MCX Rattler

- ▲ Complete SIG MCX Rattler upper receiver assembly
- ▲ Lower receiver stock adapter
- ▲ Side-folding AR Buffer tube knuckle
- ▲ Two-stage match duo trigger

SIG MCX VIRTUS® HANDGUARDS

Change the barrel and modify the Virtus handguard to match.

- ▲ PDW, carbine, rifle, and DMR lengths available
- ▲ Offered in black, FDE, and Virtus gray
- ▲ Suppressor adaptable configurations

SIG MCX & SIG MPX® STOCKS AND PCB BRACES

Options as diverse as your mission.

- ▲ M4 adjustable folding
- ▲ Dual-rod collapsible
- ▲ Skeletonized mini
- ▲ Skeletonized plus (not pictured)
- ▲ Pivoting contour brace
- ▲ Tele-stock (not pictured)

SIG MCX VIRTUS/RATTLER CALIBER EXCHANGE KIT

Move swiftly and easily between calibers and barrel lengths.

- ▲ 16" barrels (5.56 NATO/.300 BLK)
- ▲ 11.5" barrel (5.56 NATO)
- ▲ 9" barrels (.300 BLK)
- ▲ 6.75" barrels (.300 BLK)
- ▲ Rattler only 5.5" (.300 BLK / 5.56 NATO)

SIG MATCHLITE™ 2-STAGE TRIGGER

A trigger made for a SIG SAUER rifle, and perfect for any AR.

- ▲ Match grade performance
- ▲ Non-adjustable
- ▲ Includes hammer and trigger pins

SIG MPX® CALIBER EXCHANGE KIT

Transition between barrel lengths efficiently.

- ▲ 16", 8", and 4.5" barrels (9mm)
- ▲ Available for Gen2 MPX only

SIG MPX HANDGUARDS

Configure the MPX for the barrel and the activity of your choice.

- ▲ K, PDW, and carbine lengths available
- ▲ Offered in black anodized

The TREAD® rifle is easily customizable with a full line of purpose-built accessories, designed in the U.S.A. Some items will fit most AR rifles.

SIG MATCHLITE 2-STAGE TRIGGER

Factory Upgrade Single Stage Trigger Kit for TREAD

- ▲ Match grade performance
- ▲ Non-adjustable
- ▲ Includes hammer and trigger pins

ROME05™ 1X20 MM

Robust, Compact Red Dot Sight

- ▲ 1x20 aiming solution for TREAD
- ▲ 2 MOA red-dot
- ▲ 10 illumination settings
- ▲ TREAD logo

3-CHAMBER COMPENSATOR

- ▲ Reduce Recoil and Muzzle Rise
- ▲ 5.56 mm, 1/2 x 28
- ▲ 7.62 mm, 5/8 x 24

AMBI CHARGING HANDLE

- ▲ Full ambidextrous design
- ▲ Medium-sized latches and dual roll pin
- ▲ Aircraft grade aluminum

M-LOK® HANDGUARDS

- ▲ Available in 10", 13", and 15" lengths
- ▲ M-LOK free float aluminum
- ▲ Two screw replacement

FLIP UP SIGHTS

Factory Replacement Sights Set for TREAD

- ▲ Tool-less adjustment
- ▲ Button-less flip-up and lock
- ▲ Includes sight rail

VERTICAL GRIP KIT

- ▲ M-LOK compatible
- ▲ Dual angle vert grip
- ▲ Includes barricade stop

M-LOK FORWARD GRIP KIT

- ▲ Vertical grip, barricade stop, handstop, long and short rail sections
- ▲ M-LOK compatible

SPEC1™

COMPLETE PREMIUM CARE SYSTEM

SIG SAUER® SPEC1, a premium firearm cleaning system. SPEC1 is a non-toxic, non-hazardous, pure synthetic-based lubricant with no Teflon®, silicones, or petroleum distillates. SPEC1 is formulated to reduce heat and wear, and to keep firearms running smoother and lasting longer. SPEC1 will not attract dust, dirt and sand, or feel sticky and tacky like most petroleum-based products on the market today. This synthetic lubricant will not dry up, freeze in cold temperatures, or allow carbon, copper, and plastic wad fouling to stick in the barrels or to gun parts. This non-toxic, non-hazardous formula is completely safe for the end user during application, cleaning, and firing.

PREMIUM BLEND

- ▲ Pure synthetic based lubricant with no Teflon™, silicones, or petroleum distillates
- ▲ Available in 2oz and 4oz bottles

PREMIUM BLEND GREASE

- ▲ Similar properties as the premium blend but in a grease for difficult service areas or areas that require grease.
- ▲ 100% synthetic

PREMIUM BLEND 30 HEAVY DUTY

- ▲ Pure synthetic based lubricant with no Teflon™, silicones, or petroleum distillates
- ▲ Available in 2oz and 4oz bottles
- ▲ 30 WT equivalent

SPEC1 PISTOL CLEANING KIT

- ▲ Premium components to aid in cleaning and to help prevent damage to your SIG SAUER pistol
- ▲ Pair this with your favorite SPEC1 lubricant to perform factory recommended cleaning
- ▲ Deluxe Kit includes: two-piece rod, aluminum CNC swivel rod handle, muzzle guard, bronze pistol brushes, pistol mops, brass jags, and patch holder for 9, .357, 40, and .45 cal pistol

PREMIUM CLEANING SYSTEM

- ▲ Premium bore solvent that removes carbon, lead, and plastic
- ▲ Premium firearm cleaner / degreaser
- ▲ Premium blend firearm lubricant

SIG MERCHANDISE

Show your SIG pride with a full line of SIG SAUER apparel, hats, and branded accessories. Choose from a wide range of sizes, men's or women's, and a variety of styles. There's something for everyone.

MITCH ROSEN™ LEATHER HOLSTERS

- ▲ Superior quality gunleather
- ▲ Professional level concealed carry
- ▲ Custom fit and function
- ▲ Handmade in the U.S.A.

BLACKPOINT™ TACTICAL HOLSTERS

- ▲ BlackPoint manufactured Kydex®
- ▲ Quality, comfort and conceal ability
- ▲ Built specifically for SIG pistols
- ▲ Made in the U.S.A.

BRANDED HATS

- ▲ SIG circle U.S.A. hat
- ▲ SIG Kryptek camo hat
- ▲ Flexfit® hats
- ▲ Snap back hats

AXIL TRACKR™ BLU ELECTRONIC BLUETOOTH EAR MUFFS

- ▲ Hearing enhancement, hearing protection, and 5.0 Bluetooth
- ▲ 40 dB gain/amplification
- ▲ Autolocker technology shuts off all sounds over 85 dB
- ▲ Sweat and water resistant

EYE PROTECTION

- ▲ SIG SAUER branded
- ▲ Clear polymer
- ▲ Adjustable arms
- ▲ Ballistic rated

APPAREL

- ▲ SIG SAUER T-Shirts
- ▲ Pullover hoodies
- ▲ Zipper pullovers
- ▲ Belts

KERSHAW® DROP POINT FOLDER

- ▲ Produced by Kershaw and co-branded SIG SAUER
- ▲ 14C28N Steel 3" Blade
- ▲ Pocket clip can be configured for tip-up or tip-down carry
- ▲ SpeedSafe® assisted flipper
